Unobligated cash balance of dissolved school district - Tax credits. The unobligated cash balance in excess of ten thousand dollars which is not designated for indebtedness of any school district dissolved after January 1, 1989, is a credit for the residents of the dissolved school district against taxes levied by the school district the dissolved school district is attached to in the year or years following the dissolution depending on the average local effort based on the previous five-year average as calculated by the county superintendent. If a school district is dissolved and attached to more than one school district, the credit that the residents of the attached school district receive from the receiving school district must be in the same proportion to the remaining unobligated cash balance as the taxable valuation of the property bears to the total taxable valuation of the property in the school district that existed prior to dissolution.

3. If a practitioner prescribes a drug by its brand name, the pharmacist may exercise professional judgment in the economic interest of the patient by selecting a drug product with the same generic name and demonstrated therapeutical equivalency as the one prescribed for dispensing and sale to the patient unless the practitioner specifically indicates in the practitioner's own handwriting "brand necessary" on a written prescription or expressly indicates that an oral prescription is to be dispensed as communicated. The pharmacist shall note the instructions on the file copy of the prescription. A reminder legend must be placed on all prescription forms. The legend must state: "In order to require that a brand name product be dispensed, the practitioner must handwrite the words 'brand necessary'." The legend printed on

the prescription form must be in at least ~~sixteen point~~ six-point uppercase print. The pharmacist shall not substitute a generic name drug product unless its price to the purchaser is less than the price of the prescribed drug product. In addition, a pharmacist shall not substitute drug products in the following dosage forms: enteric coated tablets, controlled release products, injectable suspensions other than antibiotics, suppositories containing active ingredients for which systemic absorption is necessary for therapeutic activity, and different delivery systems for aerosol and nebulizer drugs. In the event that any drug listed above is, subsequent to January 1, 1982, determined to be therapeutically equivalent, then the previously mentioned substitution ban shall be automatically removed for that drug. The pharmacist shall inform the person receiving the drug when a prescription for a brand name drug product does not require that the prescribed drug be dispensed and of the person's right to refuse a generic name drug product selected by the pharmacist. The pharmacy file copy of every prescription shall include the brand name, if any, or the name of the manufacturer, packer, or distributor of the generic name drug dispensed. A pharmacist who selects and dispenses a therapeutically equivalent generic name drug product shall assume no greater liability for selecting the dispensed drug product than would be incurred in filling a prescription for a drug product prescribed by its generic name. The practitioner is not liable for the substitution made by a pharmacist.

SECTION 9. AMENDMENT. Section 54-14-08 of the North Dakota Century Code is hereby amended and reenacted to read as follows:

54-14-08. All departments, agencies, boards, commissions, and institutions in state government shall have the authority to withhold certain amounts from state employees' compensation. All departments, agencies, boards, commissions, and institutions in state government shall compute and withhold from state employees' monetary compensation only those amounts which are required by law to be withheld and only those other items approved by the office of the budget. However, amounts may not be withheld or deducted from state employees' monetary compensation for the payment of insurance premiums, except life or health insurance premiums or amounts deferred to fund a deferred compensation program, unless otherwise specifically authorized by law.

Stafford Disaster Emergency Assistance Act [Pub. L. 93-288, as amended] for the period beginning with the effective date of this Act and ending June 30, 1991. The

\$1,500,000 appropriation is contingent upon the ability to match federal funds. The emergency commission shall transfer the appropriation authority to state agencies and institutions to provide disaster relief in accordance with federal law. Costs recovered by the state agencies and institutions for which a transfer of funds was made must be deposited in the Bank of North Dakota for the purpose of repaying the loan authorized under this section. The emergency commission may use moneys in the state contingency fund to repay the Bank of North Dakota if those funds are not otherwise needed. In addition to principal repayment, the Bank of North Dakota shall receive interest at the same rate earned by the general fund. If it is estimated that at the end of the 1989-91 biennium a balance will exist on the loan, the emergency commission shall request the 1991 legislative assembly for a deficiency appropriation to repay the loan.

SECTION 12. CONTINGENT APPROPRIATION - ENGINEER SALARIES. The sums hereinafter listed, or so much thereof as may be necessary, are hereby appropriated, subject to central personnel division review and approval, out of any moneys in the general fund in the state treasury and from the special funds of the agencies listed, not otherwise appropriated, to the agencies and institutions of state government listed below for the purpose of providing salary increases to engineers for the period beginning July 1, 1989, and ending June 30, 1991:

SECTION 13. APPROPRIATION AUTHORITY REDUCTIONS. If the most recent forecast of the state general fund ending balance for the 1989-91 biennium is a negative balance, the director of the budget shall certify that fact to the governor and the budget section of the legislative council.

After certification and upon the approval of the budget section, the appropriation authority enacted by the fifty-first legislative assembly is, prior to the application of section 54-44.1-12 or 54-44.1-13.1, proportionately reduced for each entity for which an appropriation from the state general fund or the state aid distribution fund was made by the fifty-first legislative assembly, as provided in this section. The total reductions must be in an amount to provide for an estimated ending balance that is not a negative balance at the end of the 1989-91 biennium, provided that in no event may the reduction in appropriation authority under this section exceed \$20,000,000. The amount of each reduction in appropriation authority must be proportional to the amounts provided in this section and the maximum reduction for each entity may not exceed the following amounts:

Superintendent of public instruction, not including the schools for blind and deaf or division of independent study	\$ 4,660,000

The amount of \$2,740,000 included as other must be reduced proportionately by the office of management and budget from other general fund appropriations not otherwise reduced by this Act. The chief justice of the supreme court shall determine the line items from which reductions are to be made for the judicial branch and the chairman of the legislative council shall determine the line items from which reductions are to be made for the legislative branch.

SECTION 14. CONTINGENT SUSPENSION. The provisions of this Act supersede sections 54-44.1-12 and 54-44.1-13.1 if it is determined reductions are needed as provided in section 13 for appropriations from the state general fund or the state aid distribution fund for the period July 1, 1989, through June 30, 1991, unless for any reason the provisions of section 13 of this Act are not effective. If the reductions in appropriation authority provided in section 13 are not sufficient to meet the shortfall in an affected fund, the provisions of sections 54-44.1-12 and 54-44.1-13.1 are applicable for additional reductions in appropriation authority.

SECTION 15. EMERGENCY. Section 11 of this Act is declared to be an emergency measure.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. APPROPRIATION. The funds provided in this section, or so much thereof as may be necessary, are hereby appropriated out of any moneys in the state aid distribution fund in the state treasury, not otherwise appropriated, to the state treasurer of the state of North Dakota for the purpose of distributing state aid distribution fund revenue to local political subdivisions, for the biennium beginning July 1, 1989, and ending June 30, 1991, as follows:

Grants, benefits, and claims	<u>\$54,208,300</u>
Total state aid distribution fund appropriation	<u>\$54,208,300</u>

*** SECTION 2. AMENDMENT.** Section 57-58-01, as amended by section 2 of chapter 35 of the 1987 Session Laws of North Dakota, effective July 1, 1989, is hereby amended and reenacted to read as follows:

57-58-01. Distribution to counties and local subdivisions. It is hereby provided that any political subdivision which has an existing bonded indebtedness for which a tax levy must be made in 1970 or any year thereafter, shall reduce its levy in each such year for current operating purposes by the amount which its tax levy on taxable property in that year for retirement of the bonded indebtedness is increased because of the exemption of personal property by subsection 25 of section 57-02-08. On or before February 1, 1971, the county auditor of each county shall certify to the state tax commissioner the total amount of taxes levied in the year 1968 for the state, county, cities, park boards, school districts, airport authorities, townships, and all other units of government having the authority to levy taxes, and levies voted by the people, new or present levies increased by legislative action of such county on those items of personal property exempt under the provisions of section 57-02-08, and, in addition, the total valuation of real estate and taxes levied on real estate for the year 1968. On or before ~~June 1~~ June 30, 1990, and each year thereafter, the state tax commissioner shall certify for payment to the state treasurer an amount, for payment by the state treasurer to each county, determined to be due such county based upon the personal property taxes levied in the year 1968 for the political subdivisions herein mentioned on

*** NOTE:** Section 57-58-01 was also amended by section 4 of Senate Bill No. 2384, chapter 650.

the items of personal property exempt from the personal property tax under the provisions of section 57-02-08, the per capita school tax under the provisions of former section 57-15-23, and the grain tax under the provisions of former chapter 57-03, together with any adjustments to be made in the manner hereinafter provided. Within sixty days after the receipt of the revenue as provided by this section, the county treasurer shall allocate and remit to the county, cities, park boards, school districts, airport authorities, townships, and all other units of government having the authority to levy taxes that amount of revenue which is received from the state in the same ratio as he would have distributed the revenue from the personal property tax, adjusting such amount by any increase or decrease in real property taxes as levied by each taxing authority according to the formula hereinafter provided. Any amount that would be apportioned and credited to the retirement of a bonded indebtedness existing in 1970 for which a tax levy was made in 1970 and in any year thereafter, shall be credited to the general fund of the political subdivision. In the years after 1971, payments to the counties under this section shall be made based upon ninety-five percent of such payment for 1971 together with a growth factor which shall be based upon the dollar amount of increase or decrease in real property taxes levied within each county. For each seven dollar increase in real property taxation within a county, the state shall contribute an additional one dollar over that amount which equals ninety-five percent of such payment in the base year. For each seven dollar decrease in real property taxation within a county, the state shall contribute one dollar less than that amount which equals ninety-five percent of such payment in the base year.

On or before ~~June 1, 1980~~ June 30, 1990, and each year thereafter, the state tax commissioner shall certify to the state treasurer the amount determined to be due to the state based upon the personal property taxes levied in the year 1968 for the North Dakota state medical center. The amount so certified shall be computed in accordance with the formula provided in this section for computing the amounts to be certified and paid to the counties. The state treasurer upon receiving the certification from the tax commissioner shall transfer from the general fund to the credit of the North Dakota state medical center the amount so certified.

Any political subdivision which levied taxes on taxable property in the year 1970 for a specific fund or purpose for which a levy was not made by it in the year 1968 shall be entitled to a distribution of revenue from the state in the year 1971 for any such levy. The amount of such distribution shall be determined as follows: the county auditor shall certify to the state tax commissioner as soon as possible after March 30, 1971, the amount of each such levy made by and spread for each political subdivision on taxable real property in the county in the year 1970; the tax commissioner shall forthwith determine the correctness of such amounts and certify to the state treasurer for immediate payment to the county an amount that is determined by dividing the total of such levies made and spread in 1970 on taxable real property in the county by the growth factor that is provided in the first paragraph of this section; the county treasurer within fifteen days after the receipt of such revenue from the state treasurer shall allocate and remit to each political subdivision its proportionate amount of that revenue.

If the classification of any property for taxation purposes is changed from real to personal property or from personal to real property because of legislative or judicial action, the county auditor of the county in which the property is located shall forthwith certify to the tax commissioner the

amount of real estate taxes or personal property taxes that was levied on all such property by each taxing district in the year 1968 and in any other year thereafter that the tax commissioner may request. The tax commissioner, in determining the amount to be certified to the state treasurer for payment to the county pursuant to this section, shall adjust the amounts of taxes certified by the county auditor as levied on real property and on personal property in 1968 and in any other year as may be necessary by adding to or subtracting from each such amount the taxes on the reclassified property so that the distribution by the state to the county will be determined as though such property had been taxed in 1968 and all later years in the classification into which it was reclassified.

Notwithstanding the other provisions of this section, personal property tax replacement is an amount as determined under section 57-39.2-26.1, subject to legislative appropriation. If moneys appropriated by the legislative assembly for personal property tax replacement are not in the amount that would be provided under this section for distribution, the tax commissioner and the state treasurer shall provide for pro rata distribution of available funds on the basis of the formula contained in this section.

The state auditor must include or require a statement of compliance with this section in each political subdivision's audit report.

SECTION 4. STATEMENT OF INTENT. It is the intent of the legislative assembly that, if the amount appropriated in this Act is less than the amount deposited in the state aid distribution during the 1989-91 biennium, the legislative assembly shall provide a deficiency appropriation of the excess amount deposited and that the deficiency appropriation be for the 1989-91 biennium, and not be considered in appropriations for the 1991-93 biennium.

AN ACT to make an appropriation for defraying North Dakota's cost share of the Belfield/Bowman radiation remediation project costs under authority of the Uranium Mill Tailings Radiation Control Act; and to provide authorization to the state department of health and consolidated laboratories to negotiate with the department of energy on behalf of the state of North Dakota concerning the Belfield/Bowman radiation remediation project.

There is hereby appropriated out of any moneys in the general fund in the state treasury, not otherwise appropriated, the sum of \$140,000, or so much thereof as may be necessary, to the North Dakota state department of health and consolidated laboratories for the state's ten percent cost share of the Belfield/Bowman radiation remediation project for the biennium beginning July 1, 1989, and ending June 30, 1991.

SECTION 2. Intent and purpose. The Uranium Mill Tailings Radiation Control Act of 1978 [Pub. L. No. 95-604] was enacted to provide a mechanism for federal and state cooperation and funding to clean up abandoned uranium tailings piles needing reclamation in order to protect the health and safety of the general public. On November 8, 1979, the department of energy designated twenty-five "processing sites" throughout the United States, including two in North Dakota near Belfield and Bowman. The Belfield/Bowman project is a multibiennial project that began in the 1987-89 biennium and will be completed in the 1991-93 biennium. The project costs for all uranium radiation cleanup projects are cost-shared at a ninety percent department of energy and ten percent matching state ratio. The costs related to the Belfield/Bowman radiation remediation project through the 1991-93 biennium are projected by the department of energy as follows:

Remediation Construction Costs:

<u>Estimated Total Cost</u>	<u>Estimated 90% Federal Share</u>	<u>Estimated 10% State Share</u>

The other required match can come from any and all nonfederal sources. The state's participation is necessary in order to receive the federal assistance and ensures that the state will have full participation in the selection and performance of the remediation activities.

SECTION 31. AMENDMENT. Subdivisions i and j of subsection 2 of section 26.1-36-04 of the 1987 Supplement to the North Dakota Century Code are hereby amended and reenacted to read as follows:

- i. A provision that if, with respect to a person covered under the policy, benefits for allowable expense incurred during a claim determination period under the policy together with benefits for allowable expense during such period under all other valid coverage exceed the total of the person's allowable expense

during such period, the insurer is liable only for such proportionate amount of the benefits for allowable expense under the policy during such period as (1) the total allowable expense during such period bears to (2) the total amount of benefits payable during such period for such expense under the policy and all other valid coverage (without giving effect to this provision or to any "overinsurance provision" applying to such other valid coverage) less in both (1) and (2) any amount of benefits for allowable expense payable under other valid coverage which does not contain an overinsurance provision. The provision must provide that in no event does the provision operate to increase the amount of benefits for allowable expense payable under the policy with respect to a person covered under the policy above the amount which would have been paid in the absence of the provision. The provision must provide that the insurer may pay benefits to any insurer providing other valid coverage in the event of overpayment by such insurer, and any such payment discharges the liability of this insurer as fully as if the payment had been made directly to the insured, the insured's assignee, or the insured's beneficiary. The provision must provide that in the event that the insurer pays benefits to the insured, the insured's assignee, or the insured's beneficiary, in excess of the amount which would have been payable if the existence of other valid coverage had been disclosed, the insurer has a claim for relief against the insured, the insured's assignee, or the insured's beneficiary, to recover the amount which would not have been paid had there been a disclosure of the existence of the other valid coverage. The provision must provide that the amount of other valid coverage which is on a provision of service basis will be computed as the amount the services rendered would have cost in the absence of such coverage. The provision must provide that:

- (1) "Allowable expense" means one hundred ten percent of any necessary, reasonable, and customary item of expense which is covered, in whole or in part, as a hospital, surgical, medical, or major medical expense under this policy or under any other valid coverage.
- (2) "Claim determination period" with respect to any covered person means the initial period, as provided in the policy, but not less than thirty days and each successive period of a like number of days, during which allowable expense covered under the policy is incurred on account of such person. The first period begins on the date when the first expense is incurred, and successive periods begin when successive expense is incurred after expiration of a prior period.

Or, in lieu thereof:

"Claim determination period" with respect to any covered person means the number of days, as provided in the policy but not less than thirty days during which allowable expense covered under the policy is incurred on account of such person.

- (3) "Overinsurance provision" means the provision which may reduce an insurer's liability because of the existence of benefits under other valid coverage.

This type of provision may be inserted in all policies providing hospital, surgical, medical, or major medical benefits. The insurer may make this provision applicable to either or both: other valid coverage with other insurers; and, except for individual policies individually underwritten, other valid coverage with the same insurer. The insurer must shall include in the provision a definition of "other valid coverage". The definition may include hospital, surgical, medical, or major medical benefits provided by group, blanket, or franchise coverage, individual and family-type coverage, blue cross-blue shield coverage, and other prepayment plans, group practice, and individual practice plans, uninsured benefits provided by labor-management trustee plans, or union welfare plans, or by employer or employee benefit organizations, benefits provided under governmental programs, workmen's workers' compensation insurance, or any coverage required or provided by any other statute, and medical payments under automobile liability and personal liability policies. Other valid coverage may not include payments made under third party liability coverage as a result of a determination of negligence. The insurer may require, as part of the proof of claim, the information necessary to administer the provision.

- j. A provision that after the loss-of-time benefit of the policy has been payable for ninety days, such benefit will be adjusted, as provided below, if the total amount of unadjusted loss-of-time benefits provided in all valid loss-of-time coverage upon the insured should exceed a percent of the insured's earned income as provided in the policy; provided, however, that if the information contained in the application discloses that the total amount of loss-of-time benefits under the policy and under all other valid loss-of-time coverage expected to be effective upon the insured in accordance with the application for this policy exceeded an alternative percent of the insured's earned income as provided in the policy, at the time of the application, such higher percentage will be used in place of the original percent provided. The provision must provide that the adjusted loss-of-time benefit under the policy for any month will be only such proportion of the loss-of-time benefit otherwise payable under the policy as (1) the product of the insured's earned income and the original percent (or, if higher, the alternative percentage) bears to (2) the total amount of loss-of-time benefits payable for such month under the policy and all other valid loss-of-time coverage on the insured (without giving effect to the "overinsurance provision" in this or any other coverage) less in both (1) and (2) any amount of loss-of-time benefits payable under other valid loss-of-time coverage which does not contain an "overinsurance provision". The provision must provide that in making the computation, all benefits and earnings will be converted to a consistent basis weekly if the loss-of-time benefit of the policy is payable weekly, or monthly if the benefit is payable monthly, or otherwise, based upon the time

period. If the numerator of the foregoing ratio is zero or is negative, no benefit is payable. The provision must provide that in no event does the provision operate to reduce the total combined amount of loss-of-time benefits for such month payable under the policy and all other valid loss-of-time coverage below the lesser of three hundred dollars and the total combined amount of loss-of-time benefits determined without giving effect to any "overinsurance provision", nor operate to increase the amount of benefits payable under the policy above the amount which would have been paid in the absence of the provision, nor take into account or operate to reduce any benefit other than the loss-of-time benefit. The provision must provide that:

- (1) "Earned income", except where otherwise specified, means the greater of the monthly earnings of the insured at the time disability commences and the insured's average monthly earnings for a period of two years immediately preceding the commencement of the disability, and does not include any investment income or any other income not derived from the insured's vocational activities.
- (2) "Overinsurance provision" includes this type of provision and any other provision with respect to any loss-of-time coverage which may have the effect of reducing an insurer's liability if the total amount of loss-of-time benefits under all coverage exceeds a stated relationship to the insured's earnings.

This type of provision may be included only in a policy which provides a loss-of-time benefit which may be payable for at least fifty-two weeks, which is issued on the basis of selective underwriting of each individual application, and for which the application includes a question designed to elicit information necessary either to determine the ratio of the total loss-of-time benefits of the insured to the insured's earned income or to determine that such ratio does not exceed the percentage of earnings, not less than sixty percent, selected by the insurer and inserted in lieu of the blank factor above. The insurer may require, as part of the proof of claim, the information necessary to administer this provision. If the application indicates that other loss-of-time coverage is to be discontinued, the amount of such other coverage must be excluded in computing the alternative percentage in the first sentence of the overinsurance provision. The policy must include a definition of "valid loss-of-time coverage" which may include coverage provided by governmental agencies and by organizations subject to regulation by insurance law and by insurance departments of this or any other state or of any other country or subdivision thereof, coverage provided for the insured pursuant to any disability benefits statute or any workmen's worker's compensation or employer's liability statute, benefits provided by labor-management trustee plans or union welfare plans or by employer or employee benefit organizations, or by salary continuance or pension programs, and any other coverage the inclusion of which may be approved.

This section, to the extent that it is not inconsistent with procedural rules adopted by the North Dakota supreme court, governs any appeal provided by statute from the decision of a local governing body, except those court reviews provided under sections 2-04-11, 40-47-11, and 40-51.2-15. For the purposes of this section, "local governing body" includes any officer, board, commission, resource or conservation district, or other political subdivision. Each appeal is governed by the following procedure:

1. The notice of appeal must be filed with the clerk of the court within thirty days after the decision of the local governing body. A copy of the notice of appeal must be served on the local governing body in the manner provided by rule 4 of the North Dakota Rules of Civil Procedure.
2. The appellee shall prepare and file a single copy of the record on appeal with the court. Within thirty days, or such longer time as the court by order may direct, after the notice of appeal has been filed in the court, and after the deposit by the appellant of the estimated cost of a transcript of the evidence, the local governing body shall prepare and file in the office of the clerk of the court in which the appeal is pending the original or a certified copy of the entire proceedings before the local governing body, or such abstract of the record as may be agreed upon and stipulated by the parties, including the pleadings, notices, transcripts of all testimony taken, exhibits, reports or memoranda, exceptions or objections, briefs, findings of fact, proposed findings of fact submitted to the local governing body, and the decision of the local governing body in the proceedings. If the notice of appeal

specifies that no exception or objection is made to the local governing body's findings of fact, and that the appeal is concerned only with the local governing body's conclusions based on the facts found by it, the evidence submitted at the hearing before the local governing body must be omitted from the record filed in the court. The court may permit amendments or additions to the record to complete the record.

3. If the court determines on its own motion or if an application for leave to adduce additional evidence is made to the court in which an appeal from a determination from a local governing body is pending, and it is shown to the satisfaction of the court that such additional evidence is material and that there are reasonable grounds for the failure to adduce such evidence in the hearing or proceeding had before the local governing body, or that such evidence is material to the issues involved and was rejected or excluded by the local governing body, the court may order that such additional evidence be taken, heard, and considered by the local governing body on such terms and conditions as the court may determine. After considering the additional evidence, the local governing body may amend or modify its decision, and shall file with the court a transcript of the additional evidence together with its new or modified decision, if any.

A copy of the petition must be served upon all the parties to the hearing before the board. The party seeking the review shall file in the court a transcript of the entire record in the proceedings, including the documents and testimony upon which the order complained of was entered and the findings, determination, and order of the board, which record

The findings of the board as to the facts are conclusive if such findings are supported by evidence. If any party applies to the court for leave to produce additional evidence and shows to the satisfaction of the court that such evidence is material and that there were reasonable grounds for the failure to produce it on the hearing before the board, the court may order such additional evidence to be taken before the board and to be made a part of the transcript. The board may modify its findings as to the facts or make new findings after considering the additional evidence so taken and filed. It shall file the modified or new findings, if any, and if the new findings are supported by evidence, they are conclusive, and the board shall file with the court any recommendations it may have for the modification or setting aside of its original order. HOUSE BILL NO. 1581
(Kretschmar, Vander Vorst, Stofferahn)

FINANCIAL INSTITUTION LOAN LOSSES

AN ACT to create and enact a new section to chapter 6-03 and a new section to chapter 6-06 of the North Dakota Century Code, relating to the amortization and deferral of certain loan losses by state-chartered banks and credit unions; and to provide an expiration date.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. A new section to chapter 6-03 of the North Dakota Century Code is hereby created and enacted to read as follows:

1. A bank that complies with the requirements of this section and which has at least twenty-five percent of its total loans in agricultural loans may amortize and defer its losses on agricultural loans and its losses resulting from a reappraisal or sale of real or personal property acquired by the bank in connection with an agriculturally related loan, provided the loss was not a result of fraud or criminal abuse on the part of an officer, director, or shareholder of the bank. Agricultural loans include loans made to finance agricultural production, loans secured by farmland, loans secured by farm machinery, or other loans that a bank proves to be sufficiently related to agriculture for classification as an agricultural loan.
2. At least sixty days before the end of the calendar quarter for which the bank intends to amortize and defer its losses as permitted by this section, the bank shall notify the board in writing and submit to the board its written plan for amortizing and deferring its eligible losses. At a minimum the bank's amortization and deferral plan must include a list and description of the specific losses which the bank intends to amortize and defer and a realistic capital plan for restoring the bank's capital to the level required by the board not later than the end of the amortization period.
3. Within thirty business days after the date of mailing of the notification required by subsection 2, the bank's intention to amortize and defer its losses as stated in its notification is deemed approved unless the board issues its preliminary order denying the amortization and deferral proposed by the bank and provides the bank with an opportunity for the bank to request a hearing before the board. Any hearing must be upon at least ten work days' notice to the bank. The board's preliminary order denying a bank's intended loss amortization and deferral plans may be made by the board after consultation with the commissioner and the preliminary order may be issued without a formal meeting. If

the bank does not make its written request for a hearing, the bank is deemed to have withdrawn its notification of its intention to amortize and defer its losses and may not amortize and defer its losses. When deciding on an amortization and deferral proposal, the board shall examine and consider all relevant factors including:

- a. Whether the losses the bank intends to amortize and defer are eligible for such treatment under this section;
 - b. That the bank is in need of capital restoration and whether by the end of the amortization period set forth in this section the bank's capital will be restored to the level required by the board under a realistic capital plan as approved by the board and considering the assets classified loss by a state or federal examiner;
 - c. Whether, during the period of amortization and deferral permitted by this section, the bank will remain viable and fundamentally sound; and
 - d. Whether the bank is well managed.
4. The losses that are eligible for amortization and deferral under this section are limited to those losses on agricultural loans which the bank incurred or incurs between 1984 and 1991, inclusive, and those losses on reappraisals or sales of real or personal property that the bank acquired in connection with an agriculturally related loan, owned no earlier than January 1, 1983, and any additional property that it acquires between January 1, 1983, and December 31, 1991, inclusive.
 5. To be permitted under this section, all amortization of deferred loss must be computed over a period not to exceed seven years on a quarterly straight-line basis commencing in the first quarter after the loan was or is charged off so as to be fully amortized not later than December 31, 1998. A bank that is permitted to amortize its losses under this section may restate its capital and other relevant accounts in accordance with the instructions for the reports it submits to the commissioner under section 6-03-70.
 6. Any determination of the value of the assets of a bank that is permitted to amortize and defer losses, including, determinations of asset value under section 6-01-09, must incorporate at face value the full amount of any asset account established and maintained by the bank in conformity with this section. Any determination of the level or amount of capital that is maintained by a bank that is permitted to amortize and defer loss, including a determination of capital and surplus under section 6-03-59 must incorporate at face value the full amount of any deferred loss capital account established and maintained by the bank in conformity with this section.
 7. A bank that is amortizing and deferring its losses as permitted by this section shall fully adhere to its approved capital plan unless it has obtained the prior approval of the board for a modification to its plan.

8. If the bank fails to continue to meet the requirements under which authorization was granted pursuant to this section or to comply with the capital plan, the board shall notify the bank of its intent to revoke authorization for deferral of losses. The bank has sixty days from receipt of the notice in which to submit objections and reasons why authorization should continue. If no written objections are received within sixty days, the revocation is final. If the bank submits objections, they will be considered and a final decision, or a request for additional information, must be made within the next thirty days.
9. The bank shall provide the board, upon request, with any information the board deems necessary to monitor the bank's amortization, its compliance with conditions, and its continued eligibility.
10. Acceptance of a bank for loss amortization does not foreclose any administrative action against the bank that the board may deem appropriate.

SECTION 2. A new section to chapter 6-06 of the North Dakota Century Code is hereby created and enacted to read as follows:

1. A credit union that complies with the requirements of this section and which has at least twenty-five percent of its total loans in agricultural loans may amortize and defer its losses on agricultural loans and its losses resulting from a reappraisal or sale of real or personal property acquired by the credit union in connection with an agriculturally related loan, provided the loss was not a result of fraud or criminal abuse on the part of an officer or director. Agricultural loans include loans made to finance agricultural production, loans secured by farmland, loans secured by farm machinery, or other loans that a credit union proves to be sufficiently related to agriculture for classification as an agricultural loan.
2. At least sixty days before the end of the calendar quarter for which the credit union intends to amortize and defer its losses as permitted by this section, the credit union shall notify the board in writing and submit to the board its written plan for amortizing and deferring its eligible losses. At a minimum the credit union's amortization and deferral plan must include a list and description of the specific losses which the credit union intends to amortize and defer and a realistic capital plan for restoring the credit union's capital to the level required by the board not later than the end of the amortization period.
3. The board shall approve or deny the amortization and deferral proposal within sixty days from receipt of the notification. If the board denies a credit union's application for loan loss deferral, the credit union is not entitled to a formal administrative hearing to protest the board's determination but may raise its objections to the board's decision in any pending or future administrative proceeding against the credit union. When deciding on an amortization and deferral proposal the board shall examine and consider all relevant factors including:

- a. Whether the losses the credit union intends to amortize and defer are eligible for such treatment under this section;
 - b. That the credit union is in need of capital restoration and whether by the end of the amortization period set forth in this section the credit union's capital will be restored to the board under a realistic capital plan as approved by the board and considering the assets classified loss by a state or federal examiner;
 - c. Whether, during the period of amortization and deferral permitted by this section, the credit union will remain viable and fundamentally sound; and
 - d. Whether the credit union is well managed.
4. The losses that are eligible for amortization and deferral under this section are limited to those losses on agricultural loans which the credit union incurred or incurs between 1984 and 1991, inclusive, and those losses on reappraisals or sales of real or personal property that the credit union acquired in connection with an agriculturally related loan, owned no earlier than January 1, 1983, and any additional property that it acquires between January 1, 1983, and December 31, 1991, inclusive.
 5. To be permitted under this section, all amortization of deferred loss must be computed over a period not to exceed seven years on a quarterly straight-line basis commencing in the first quarter after the loan was or is charged off so as to be fully amortized not later than December 31, 1998. A credit union that is permitted to amortize its losses under this section may restate its capital and other relevant accounts in accordance with the instructions for the reports it submits to the commissioner under section 6-06-08.
 6. Any determination of the value of the assets of a credit union that is permitted to amortize and defer losses, including, determinations of asset value under sections 6-01-09 and 6-06-08.2 must incorporate at face value the full amount of any asset account established and maintained by the credit union in conformity with this section. Any determination of the level or amount of capital that is maintained by a credit union that is permitted to amortize and defer loss, must incorporate at face value the full amount of any deferred loss capital account established and maintained by the credit union in conformity with this section.
 7. A credit union that is amortizing and deferring its losses as permitted by this section shall fully adhere to its approved capital plan unless it has obtained the prior approval of the board for a modification to its plan.
 8. If the credit union fails to continue to meet the requirements under which authorization was granted pursuant to subsection 3 or to comply with the capital plan, the board shall notify the credit union of its intent to revoke authorization for deferral of losses. The credit union has sixty days from receipt of the notice in which it may submit objections and reasons why authorization should continue. If no written objections are received within sixty days,

the revocation is final. If the credit union submits objections, they will be considered and a final decision, or a request for additional information, must be made within the next thirty days.

9. The credit union shall provide the board, upon request, with any information the board deems necessary to monitor the credit union's amortization, its compliance with conditions, and its continued eligibility.
10. Acceptance of a credit union for loss amortization does not foreclose any administrative action against the credit union that the board may deem appropriate.

 - (2) Certificate showing authorization to transact business.
- d. The commissioner may also require such additional information as to the previous history, record, or association of the applicant, its officers, directors, employees, members, partners, managers, or trustees, as he may deem necessary to establish whether or not the applicant should be registered as an investment adviser under the provisions of this chapter.
- e. There shall be filed with such application:
- (1) A written consent to the service of process upon the commissioner in actions against such investment adviser conforming to the requirements of section 10-04-14.

- (2) Payment of the prescribed registration fee, which shall be returned if registration is refused.
 - (3) A financial statement or balance sheet, prepared in accordance with standard accounting practice, showing the financial condition of the applicant as of the most recent practicable date prior to the date of such application, such financial statement or balance sheet to be certified to by an independent certified public accountant or by a responsible officer or member of said applicant, as the commissioner may require.
- f. The commissioner may require an indemnity bond or a deposit of cash or other properties approved by the commissioner running to the state of North Dakota conditioned for the faithful compliance by the investment adviser and his representatives with all the provisions of this law and for the faithful performance and payment of all obligations of the investment adviser and his representatives. The bond or deposit shall be of such type as may be approved by the commissioner and shall be in such amount as he shall deem necessary to protect persons in this state when there is taken into consideration the volume of business engaged in by the applicant and the number of persons who represent him. Any such bond shall have as surety thereon a surety company authorized to do business in this state.
 - g. The commissioner may by rule provide for an examination, which may be written or oral or both, to be taken by any class of or all applicants, as well as persons who represent or will represent an investment adviser in doing any of the acts which make him an investment adviser.
 - h. When an applicant has fully complied with the provisions of this subsection, the commissioner may register such applicant as an investment adviser unless he shall find that the applicant is not of good business reputation or is not solvent.
 - i. A registrant as investment adviser shall notify the commissioner of any change of address.
4. Investment adviser representatives. Application for registration as an investment adviser representative may be made by any person eighteen years of age or older. The application for registration must be made in writing in a form prescribed by the commissioner, signed by the applicant and by the investment adviser employing or proposing to employ the applicant, duly verified by oath, filed in the office of the commissioner, and contain the following information:
- a. Name, residence, and business address of the applicant.
 - b. Name of the investment adviser employing or proposing to employ the applicant, unless the applicant is to be self-employed.
 - c. Applicant's age and education.

- d. The nature of employment and names and addresses of employers of the applicant for the period of ten years immediately preceding the date of the application.
- e. Other state or federal laws under which the applicant has ever been registered as an investment adviser representative, and, if any registration has ever been refused, canceled, suspended, or revoked, full details with respect thereto.
- f. Whether applicant has ever been convicted of a felony or misdemeanor other than minor highway traffic offenses, and if so, all pertinent information with respect to any such conviction.

There must be filed with the application payment of the prescribed registration fee, which must be returned if registration is refused.

When an applicant has fully complied with the provisions of this subsection, the commissioner may register the applicant as an investment adviser representative unless the commissioner finds that the applicant is not of good business reputation, or that the investment adviser named in the application is not a registered investment adviser. When the commissioner has registered an applicant as an investment adviser representative, the commissioner shall immediately notify the applicant of such registration.

Every registered investment adviser shall promptly notify the commissioner of the termination of the employment by the adviser of a registered investment adviser representative. The registration of the investment adviser representative is automatically suspended from the time of termination of employment until such time as the representative notifies the commissioner of employment by another investment adviser.

The commissioner may by rule provide for an examination to be taken by the applicant.

5. Refusal of registration. If, after affording an applicant a hearing or an opportunity for a hearing as provided in section 10-04-12, the commissioner finds that there is sufficient ground to refuse to register such applicant as provided in this section, he shall enter an order refusing to register such applicant. Such order shall state specifically the grounds for its issuance. A copy of such order shall be mailed to the applicant at his business address, and if the application is for registration as a salesman, to the registered dealer or issuer who proposed to employ such applicant. If the commissioner finds that an applicant has been guilty of any act or omission which would constitute a sufficient ground for revocation of a dealer's, salesman's, or investment adviser's, or investment adviser representative's registration under section 10-04-11, such act or omission may constitute a sufficient ground for a finding by the commissioner that such applicant is not of "good business reputation".

~~5- 6.~~ Record and renewal of registrations. The names and addresses of all persons who have been registered as dealers, salesmen, ~~or~~ investment advisers, ~~or investment adviser representatives~~, and all orders with respect thereto, shall be recorded in a register of dealers, salesmen, ~~and~~ investment advisers, ~~and investment adviser representatives~~ in the office of the commissioner. Every registration under this section shall expire one year from its effective date unless renewed. The commissioner may by rule provide for expirations and renewals, including dates, forms, and procedures, adjust registration fees to correspond with expiration dates, and do any other thing which may be necessary or convenient in order to participate in a central registration depository or any similar arrangement designed to promote uniformity, to ease regulatory burdens, or to encourage cooperation with other states, the securities and exchange commission, or any registered national securities association or exchange. Upon any change in the proprietors, partners, officers, or directors of a registered dealer or investment adviser, such registered dealer or investment adviser shall promptly notify the commissioner in writing of such changes. The commissioner shall record such changes, without fee, in the register of dealers, salesmen, ~~and investment advisers~~, ~~and investment adviser representatives~~.

~~6- 7.~~ Fees. The fee, which must accompany the application, for registration, ~~transfer~~, and for each annual renewal thereof is:

a. For each dealer	\$100-00	175.00
b. For each salesman		\$ 35.00
General examination		\$ 10.00

Registration fee		\$ 50.00
d. For each investment adviser representative		\$ 35.00

An application to register as a dealer, salesman, ~~or~~ investment adviser, ~~or investment adviser representative~~ may, with the consent of the commissioner, be withdrawn upon written application, but in no event shall any registration fees be returned.

SECTION 4. AMENDMENT. Section 10-04-10.1 of the North Dakota Century Code is hereby amended and reenacted to read as follows:

10-04-10.1. Advisory activities.

1. It is unlawful for any person who receives, directly or indirectly, any consideration from another person ~~primarily~~ for advising the other person as to the value of securities or their purchase or sale, whether through the issuance of analyses or reports or otherwise:
 - a. To employ any device, scheme, or artifice to defraud the other person; or

- b. To engage in any act, practice, or course of business which operates or would operate as a fraud or deceit upon the other person; or
 - c. Acting as principal for the person's own account, knowingly to sell any security to or purchase any security from a client, or acting as broker for a person other than the client, knowingly to effect any sale or purchase of any security for the account of the client, without disclosing to the client in writing before the completion of the transaction the capacity in which the person is acting and obtaining the consent of the client to the transaction. The prohibitions of this subsection do not apply to any transaction with a customer of a dealer if the dealer is not acting as an investment adviser in relation to the transaction; or
 - d. To engage in dishonest or unethical practices as the commissioner may define by rule.
2. In the solicitation of advisory clients, it is unlawful for any person to make any untrue statement of a material fact, or omit to state a material fact necessary in order to make the statements made, in light of the circumstances under which they are made, not misleading.
3. It is unlawful for any investment adviser to enter into, extend, or renew any investment advisory contract unless it provides in writing:
- a. That the investment adviser shall not be compensated on the basis of a share of capital gains upon or capital appreciation of the funds or any portion of the funds of the client.
 - b. That no assignment of the contract may be made by the investment adviser without the consent of the other party to the contract.
 - c. That the investment adviser, if a partnership, shall notify the other party to the contract of any change in the membership of the partnership within a reasonable time after the change.

Subdivision a does not prohibit an investment advisory contract which provides for compensation based upon the total value of a fund averaged over a definite period, or as of definite dates or taken as of a definite date. "Assignment", as used in subdivision b, includes any direct or indirect transfer or hypothecation of an investment advisory contract by the assignor or of a controlling block of the assignor's outstanding voting securities by a securityholder of the assignor; but, if the investment adviser is a partnership, no assignment of an investment advisory contract is considered to result from the death or withdrawal of a minority of the members of the investment adviser having only a minority interest in the business of the investment adviser, or from the admission to the investment adviser of one or more members who, after admission, will be only a minority of the members and will have only a minority interest in the business.

- 3- 4. It is unlawful for any investment adviser to take or have custody of any securities or funds of any client if:
- a. The commissioner by rule prohibits custody; or
 - b. In the absence of rule, the investment adviser fails to notify the commissioner that he has or may have custody.

SECTION 5. AMENDMENT. Section 10-04-10.2 of the North Dakota Century Code is hereby amended and reenacted to read as follows:

10-04-10.2. Conviction not bar to registration - Exceptions. Conviction of an offense shall not disqualify a person from registration under this chapter unless the commissioner determines that the offense has a direct bearing upon a person's ability to serve the public as a dealer, salesman, ~~or~~ investment adviser, or investment adviser representative, or that, following conviction of any offense, the person is not sufficiently rehabilitated under section 12.1-33-02.1.

* SECTION 6. Section 10-04-10.3 of the North Dakota Century Code is hereby created and enacted to read as follows:

10-04-10.3. Postregistration provisions.

1. Every registered dealer, salesman, investment adviser, and investment adviser representative shall make and keep such accounts, correspondence, memoranda, papers, books, and other records as the commissioner prescribes by rule. All records so required must be preserved for three years unless the commissioner prescribes otherwise by rule for particular types of records.
2. Every registered dealer, salesman, investment adviser, and investment adviser representative shall file such financial reports as the commissioner prescribes by rule.
3. If the information contained in any document filed with the commissioner is or becomes inaccurate or incomplete in any material respect, the registrant shall promptly file a correcting amendment.
4. All the records referred to in subsection 1 are subject at any time or from time to time to such reasonable periodic, special, or other examinations by representatives of the commissioner, within or outside this state, as the commissioner deems necessary or appropriate in the public interest or for the protection of investors. For the purpose of avoiding unnecessary duplication of examinations, the commissioner, if deemed practicable in administering this subsection, may cooperate with the securities administrators of other states, the securities and exchange commission, any national securities exchange or national securities association registered under the Securities Exchange Act of 1934, or any other jurisdiction, agency, or organization charged by law or statute with regulating or prosecuting any aspect of the securities business, and in so cooperating may share any information obtained as a result of any investigation or examination.

* NOTE: Section 10-04-10.3 was also created by section 1 of Senate Bill No. 2175, chapter 126.

5. The commissioner and the commissioner's representatives may copy records or require a registrant to copy records and provide the copies to the commissioner and the commissioner's representatives to the extent and in a manner reasonable under the circumstances.

* SECTION 7. AMENDMENT. Section 10-04-11 of the North Dakota Century Code is hereby amended and reenacted to read as follows:

10-04-11. Suspension or revocation of dealer's, salesman's, and investment adviser's, and investment adviser representative's registration.

1. The commissioner may revoke the registration of any dealer, salesman, or investment adviser, or investment adviser representative if, after a hearing or opportunity for hearing as provided in section 10-04-12, he finds that such registered dealer, salesman, or investment adviser or investment adviser representative:
 - a. Has violated or failed to comply with, any provisions of this chapter or any order or rule of the commissioner under this chapter; or
 - b. Is, in the case of a dealer or investment adviser, insolvent; or
 - c. Has engaged in dishonest, fraudulent, or unethical practices in the securities business; or
 - d. Conducts business in purchasing or selling securities at such variations from current market prices as, in the light of all the circumstances, are unconscionable or unfair to the purchasing public, or if such variance, including commissions on sales, unreasonably exceeds the price quoted by a recognized national quotation list as prescribed by the commissioner; or
 - e. Has failed to file with the commissioner any financial statement record required pursuant to subsection 3 section 10-04-10.3, or has refused to permit an examination into his affairs as provided by subsection 3 section 10-04-10.3 and subsection 3 of this section; or
 - f. Has filed an application for registration which, as of its effective date or as of any date after filing in the case of an order denying effectiveness, was incomplete in any material respect or contained any statement which was, in light of the circumstances under which it was made, false or misleading with respect to any material fact; or
 - g. Has been convicted of an offense determined by the commissioner to have a direct bearing upon a person's ability to serve the public as a dealer, salesman, or investment adviser, or investment adviser representative, or the commissioner finds that a person, following conviction of any offense, is not sufficiently rehabilitated under section 12.1-33-02.1; or
 - h. Is permanently or temporarily enjoined by any court of competent jurisdiction from engaging in or continuing any

conduct or practice involving any aspect of the securities business; or

- i. Is the subject of an order of the commissioner denying, suspending, or revoking registration as a dealer, salesman, or investment adviser, or investment adviser representative; or
 - j. Is the subject of an order entered by the securities administrator of any other state or by the securities and exchange commission denying or revoking registration as a dealer, salesman, or investment adviser, or investment adviser representative, or the substantial equivalent of those terms as defined in this chapter, or is the subject of an order of the securities and exchange commission suspending or expelling him from a national securities exchange or national securities association suspending or expelling membership in or association with a member of a self-regulatory organization registered under the Securities Exchange Act of 1934, the Commodity Exchange Act, or the Investment Advisors Act of 1940; or is the subject of a United States post-office fraud order; but the commissioner may not enter an order under this subsection on the basis of an order under another state act unless that order was based on facts which would currently constitute a ground for an order of revocation or suspension under this section; or
 - k. Has, in connection with the offer, sale, or purchase of any security, directly or indirectly, effected a series of transactions creating actual or apparent active trading in any security, or to raise or depress the price of a security, for the purpose of inducing the purchase or sale of the security; or
 - l. Is not qualified on the basis of such factors as training, experience, and knowledge of the securities business; or
 - m. Has failed reasonably to supervise his salesmen if he is a dealer or his employees or his investment adviser representatives if he is an investment adviser.
2. It shall be sufficient cause for revocation of registration of a dealer or investment adviser as provided in this section, in case of a partnership or corporation or any unincorporated association, if any member of a partnership or any officer or director of the corporation or association has been guilty of any act or omission which would be sufficient ground for revoking the registration of an individual dealer or investment adviser.
 3. The commissioner may require any registered dealer, salesman, or investment adviser to make and keep such accounts, correspondence, memoranda, papers, books, and other records as he deems necessary to efficiently administer this chapter. Such records shall be preserved for three years unless the commissioner by rule prescribes otherwise for particular types of records. The commissioner may at any time require a registered dealer or investment adviser to file with him a financial statement showing the financial condition of such dealer or investment adviser as of

the most recent practicable date, and may require that such financial statement be verified by a certified public accountant; provided, however, that the commissioner shall not require any registered dealer or investment adviser to file such a financial statement more than twice in any one year. If the commissioner has reasonable grounds to believe that the registration of any registered dealer, salesman, or investment adviser, or investment adviser representative should be revoked upon any grounds specified in this section, the commissioner or his agent may conduct an examination into the affairs of any such registered dealer, salesman, or investment adviser or investment adviser representative. In making any such examination, the commissioner or his agent shall have access to and may compel the production of all the books and papers of a registered dealer, salesman, or investment adviser, or investment adviser representative, and may administer oaths to and examine the officers and employees of such dealer or investment adviser as to his business and affairs.

4. If the commissioner has reasonable grounds to believe that a registered dealer, salesman, or investment adviser, or investment adviser representative has been guilty of any act or omission which would be sufficient ground for revoking the registration of such dealer, salesman, or investment adviser, or investment adviser representative, he may enter an order suspending the registration of such dealer, salesman, or investment adviser, or investment adviser representative pending an examination into the affairs of such dealer, salesman, or investment adviser, or investment adviser representative or pending a hearing or opportunity for hearing as provided in section 10-04-12; provided, that no such order shall be effective for more than thirty days, and such order, if not withdrawn by the commissioner within thirty days, shall automatically terminate thirty days after the date of its issuance. Such suspension order shall state specifically the grounds for its issuance. Upon the entry of such suspension order, or of an order withdrawing a suspension order previously entered, the commissioner shall send a copy of such order by registered or certified mail to the dealer, salesman, or investment adviser, or investment adviser representative whose registration is affected thereby at his business address, and, if such order affects the registration of a salesman, to the registered dealer who employs such salesman to the registered dealer or registered investment adviser who employs any salesman or investment adviser representative affected by such order.
5. If the commissioner finds, after affording a registered dealer, a registered salesman, or a registered investment adviser, or a registered investment adviser representative a hearing or opportunity for hearing as provided in section 10-04-12, that there are grounds to revoke the registration of such dealer, salesman, or investment adviser, or investment adviser representative, he may enter an order in the register of dealers, salesmen, and investment advisers, and investment adviser representatives, revoking the registration of such dealer, salesman, or investment adviser, or investment adviser representative. Such order shall state specifically the grounds for its issuance. A copy of such order shall be sent by registered mail to the dealer, salesman, or investment adviser, or investment adviser representative whose

registration is revoked thereby at his business address and, if the revocation is of the registration of a salesman, or investment adviser representative, to the registered dealer or registered investment adviser who employs such ~~salesman~~ person. Suspension or revocation of the registration of a dealer shall also suspend or revoke the registration of all of his salesmen. Suspension or revocation of the registration of an investment adviser also suspends or revokes the registration of all of the investment adviser's investment adviser representatives. Suspension or revocation of the registration of a salesman or investment adviser representative solely because he was employed by a dealer or investment adviser whose registration was suspended or revoked shall not prejudice subsequent applications for registration by such ~~salesman~~ person.

SECTION 8. AMENDMENT. Section 10-04-12 of the North Dakota Century Code is hereby amended and reenacted to read as follows:

10-04-12. Hearings. Before entering an order revoking the registration of any securities as provided in section 10-04-09, the commissioner shall send to the issuer of such securities, and if the application for registration of such securities was filed by a registered dealer, to such registered dealer, a notice of opportunity for hearing. Before entering an order refusing to register any person as a dealer, salesman, or investment adviser, or investment adviser representative, as provided in section 10-04-10, or revoking the registration of any person as a registered dealer, salesman, or investment adviser, or investment adviser representative as provided in section 10-04-11, the commissioner shall send to such person, and if such person is a salesman or investment adviser representative or an applicant for registration as a salesman or investment adviser representative, to the registered dealer or investment adviser who employs or proposes to employ such salesman or investment adviser representative, a notice of opportunity for hearing.

1. Notices of opportunity for hearing shall be sent by registered or certified mail, returned receipt requested, to the addressee's business address, and such notice shall state:
 - a. The order which the commissioner proposes to issue.
 - b. The grounds for issuing such proposed order.
 - c. That the person to whom such notice is sent will be afforded a hearing upon request to the commissioner if such request is made within ten days after receipt of the notice.
2. Whenever a person requests a hearing in accordance with the provisions of this section, the commissioner shall immediately set a date, time, and place for such hearing and shall forthwith notify the person requesting such hearing thereof. The date set for such hearing shall be within fifteen days, but not earlier than five days, after the request for hearing has been made, unless otherwise agreed to by both the commissioner and the person requesting such hearing.
3. For the purpose of conducting any hearing as provided in this section, the commissioner shall have the power to call any party to

testify under oath at such hearings, to require the attendance of witnesses, the production of books, records, and papers, and to take the depositions of witnesses; and for that purpose the commissioner is authorized, at the request of the person requesting such hearing or upon his own initiative, to issue a subpoena for any witness or a subpoena duces tecum to compel the production of any books, records, or papers, directed to the sheriff of the county where such witness resides or is found, which shall be served and returned. The fees and mileage of the sheriff and witnesses shall be paid from the fund in the state treasury for the use of the commissioner in the same manner that other expenses of the commissioner are paid.

4. At any hearing conducted under this section, a party or an affected person may appear in his own behalf or may be represented by an attorney. A stenographic record of the testimony and other evidence submitted shall be taken unless the commissioner and the person requesting such hearing shall agree that such a stenographic record of the testimony shall not be taken. The commissioner shall pass upon the admissibility of evidence, but a party may at any time make objections to the rulings of the commissioner thereon, and if the commissioner refuses to admit evidence the party offering the same shall make a proffer thereof and such proffer shall be made a part of the record of such hearing.
5. In any hearing under this section, the commissioner may conduct such hearing or he may appoint a referee who shall have the same powers and authority in conducting such hearings as are in this section granted to the commissioner. Such referee shall have been admitted to the practice of law in this state and be possessed of such additional qualifications as the commissioner may require. If a hearing is conducted by a referee such referee shall submit to the commissioner a written report setting forth his findings of fact and conclusions of law and a recommendation of the action to be taken by the commissioner. A copy of such written report and recommendations shall within five days of the time of filing thereof be served upon the person who requested the hearing, or his attorney or other representative of record, by registered or certified mail. That person or his attorney may, within ten days of receipt of the copy of such written report and recommendations, file with the commissioner written objections to the report and recommendations which shall be considered by the commissioner before entering an order. No recommendations of the referee shall be approved, modified, or disapproved by the commissioner until after ten days after service of such report and recommendations as herein provided. The recommendations of the referee may be approved, modified, or disapproved by the commissioner. The commissioner may order additional testimony to be taken or permit the introduction of further documentary evidence. A transcript of testimony and evidence, objections, if any, of the parties, and additional testimony and evidence, if any, shall have the same force and effect as if such hearing or hearings had been conducted by the commissioner. All recommendations of the referee to the commissioner shall be advisory only and shall not have the effect of an order of the commissioner.

6. If the commissioner does not receive a request for a hearing within the prescribed time, he may enter the proposed order. If a hearing is requested and conducted with respect to a proposed order, the commissioner shall issue a written order which shall set forth his findings with respect to the matters involved and enter an order in accordance with his findings.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Subsection 9 of section 10-04-06 of the 1987 Supplement to the North Dakota Century Code is hereby amended and reenacted to read as follows:

9. a. Any transaction pursuant to an offer directed by the offeror to not more than twenty-five persons (other than those designated in subsection 5) in this state during any period of twelve consecutive months, whether or not the offeror or any of the offerees is then present in this state, if all of the following conditions are met:

 - (3) The offeror applies for and obtains the written approval of the commissioner prior to making any offers in this state and pays a filing fee of one hundred dollars, which fee must accompany the application for approval.

Provided, however, that the commissioner may by rule or order, as to any security or transaction or any type of security or transaction, withdraw or further condition this exemption, or increase or decrease the number of offerees permitted, or waive the conditions in paragraphs 1, 2, and 3 with or without the substitution of a limitation on remuneration.

The county auditor of each county or parts thereof shall place the office on the regular no-party ballot. The canvassing of votes, certifying of nominations, and certifying of elections for any county superintendent elected under the provisions of this section shall be carried out in the same manner as for candidates for the legislative assembly.

Whenever five percent of the qualified electors of the county or parts thereof, as determined by the vote cast for the office of governor at the last general election at which such office was voted upon, shall sign and file a petition with the county auditor of the county involved requesting that a separate county superintendent be elected by each county, or when directed by the joint action or by resolutions passed by a majority of each board involved, the county auditor of each county involved in the plan for a combined county superintendent of schools shall submit the plan to a vote of the qualified electors in each county or parts of a county at an election held prior to July first preceding the expiration of the current term of office of the county superintendent of schools. If a majority of the votes cast in each county or parts of a county approves the plan, the plan shall remain in effect. If a majority of the votes cast in each county or parts of a county reject the plan, the plan shall be discontinued with the beginning of the next term of office for the county superintendent of schools and the office of county superintendent of schools shall be reinstated as it existed prior to formulation of the plan by the county commissioners.

1. The board of county commissioners of two or more counties may agree to jointly employ a county superintendent of schools to perform the functions of the office for the counties involved. Any county

which has less than one thousand persons over five and under eighteen years of age, as determined by the superintendent of public instruction for the previous school year, must combine with another county or counties for the purpose of jointly employing a county superintendent of schools. The board of county commissioners of such a county shall develop a plan to cooperate with another county or counties to employ a county superintendent of schools. If the board of county commissioners of each county cannot agree to share a county superintendent of schools, the superintendent of public instruction may require a county to participate in a plan to jointly employ a county superintendent of schools. Any plan to share a county superintendent of schools must be approved by a majority of the presidents of the school boards of each county affected by the plan and must be confirmed by the superintendent of public instruction. If a majority of the presidents of the school boards in each county cannot agree to the plan, both the presidents of the school boards of the counties affected and the boards of county commissioners of the counties affected shall submit a plan to the superintendent of public instruction for resolution. The decision of the superintendent may be appealed as provided in subsection 3. The plan must describe the amount and quality of educational services to be provided to school districts in the counties by the county superintendent of schools. The plan must be reviewed, and amended if necessary, by the boards of county commissioners and submitted to the presidents of the school boards for approval and to the superintendent of public instruction for confirmation biennially. The superintendent of public instruction may exempt a county from jointly employing a county superintendent of schools if the superintendent determines that, due to the geographic size of the county or the duties required of the county superintendent of schools in that county, sharing a county superintendent of schools would not be feasible. Each county jointly employing a county superintendent of schools must share the salary and other expenses attributable to the county superintendent of schools. The costs must be apportioned among the counties sharing the county superintendent of schools based on the number of persons over five and under eighteen years of age in each county.

2. The board of county commissioners of any county that elects not to share a county superintendent of schools with another county, or that has been exempted from sharing a county superintendent of schools by the superintendent of public instruction, must submit a plan biennially to the school boards of the school districts located within the county. The plan must describe the amount and quality of educational services to be provided to school districts in the county by the county superintendent of schools. The plan is approved if a majority of the presidents of the school boards in the county approve the plan and the plan is confirmed by the superintendent of public instruction. If a majority of the presidents of the school boards in the county cannot agree to the plan, both the presidents of the school boards and the board of county commissioners shall submit a plan to the superintendent of public instruction for resolution. The decision of the superintendent of public instruction may be appealed as provided in subsection 3.

3. If the superintendent of public instruction does not confirm a plan that has been approved locally, the superintendent of public instruction shall submit the plan to the state board of public school education for final resolution. A majority of the presidents of the school boards in a county or a board of county commissioners aggrieved by a decision of the superintendent of public instruction may appeal the decision to the state board of public school education. A decision of or resolution by the state board of public school education under this section is final. The superintendent of public instruction may not serve on the board when the board is resolving disputes under this section.

Upon the filing with the clerk of court of notice of the assignment of support rights to a state, payments must be credited and transmitted pursuant to the assignment and in conformity with title IV-D of the Social Security Act [Pub. L. 93-647; 88 Stat. 2351; 42 U.S.C. 651, et seq., as amended]. The parties subject to the order shall immediately inform the clerk of their social security numbers and of any change of address or change of any other condition which may affect the proper administration of this chapter. Whenever there is failure to make the payments as required, the clerk shall send notice of the arrears by first-class mail, with affidavit of service, to the person required to make the payments, or request a district judge of the judicial district, on a form provided by the judge, to issue a citation for contempt of court against the person who has failed to make the payments and the citation must be served on that person as provided by the North Dakota Rules of Civil Procedure.

2. The court of its own motion or on motion of the state's attorney of the county of venue, the county of the recipient's residence, or the county of the obligor's residence may cause a certified copy of any support order in the action to be transcribed and filed with the clerk of the district court of any county in this state in which the obligee or the obligor may reside from time to time. Thereafter, the provisions of this section apply as if the support order were issued by the district court of the county to which the support order is transcribed. No fee may be charged for transcribing or filing a certified copy of any support order under this section.
3. The clerk of court, at the option of the clerk, may deposit payments received by the clerk under this section in a special trust account in either the Bank of North Dakota or in a banking institution of this state designated as a depository of public funds under chapter 21-04 and make payments from the trust account to the obligee or the clerk may deposit payments received by the clerk under this section with the county treasurer and direct their disbursement under chapter 11-14.

SECTION 3. AMENDMENT. Section 14-09-09.6 of the 1987 Supplement to the North Dakota Century Code is hereby amended and reenacted to read as follows:

14-09-09.6. Voluntary income withholding for support - Limitations. An obligor may execute a document voluntarily authorizing income withholding from current or future income due the obligor from an income payor in an amount sufficient to meet any child support obligation imposed by a court or otherwise. An income withholding authorization made under this section is binding on the income payor one week after service upon the income payor by personal service or by certified mail of a true copy of the executed income withholding authorization. The income payor shall deduct the sum or sums specified and pay them as specified by the income withholding authorization and any applicable imposition of a support obligation by a court. In addition, the income payor may deduct a fee of ~~one dollar~~ three dollars per month from the obligor's income to cover expenses involved in transmitting payment. Compliance by an income payor with an income withholding authorization issued under this section discharges the income payor's

liability to the obligor for that portion of the obligor's income. The income payor may not use the income withholding authorization as a basis for any disciplinary action against the obligor.

SECTION 4. AMENDMENT. Section 14-09-09.7 of the 1987 Supplement to the North Dakota Century Code is hereby amended and reenacted to read as follows:

14-09-09.7. Scale of suggested minimum contributions Child support guidelines.

1. The department of human services shall establish a **scale of suggested minimum contributions** child support guidelines to assist courts in determining the amount that a parent should be expected to contribute toward the support of the child under this section. The **scale guidelines** shall:
 - a. Include consideration of gross income.
 - b. Authorize an expense deduction for determining net income.
 - c. Designate other available resources to be considered.
 - d. Specify the circumstances which should be considered in reducing support contributions on the basis of hardship.
2. The department shall accept and compile pertinent and reliable information from any available source in order to establish a **minimum scale of suggested contributions** the child support guidelines. Copies of the **scale guidelines** shall be made available to courts, state's attorneys, and upon request, to any other state or county officer or agency engaged in the administration or enforcement of this chapter.
3. **The court shall consider the scale of suggested minimum contributions in making a determination of the amount of payment for child support** There is a rebuttable presumption that the amount of child support which would result from the application of the child support guidelines is the correct amount of child support. **The presumption may be rebutted if a preponderance of the evidence in a contested matter establishes that factors not considered by the guidelines will result in an undue hardship to the obligor or a child for whom support is sought. A written finding or a specific finding on the record must be made if the court determines that the presumption has been rebutted.**
4. **The department shall review the child support guidelines periodically, as the department determines necessary, but at least once every four years, to ensure that the application of the guidelines results in the determination of appropriate child support award amounts.**

* SECTION 5. AMENDMENT. Section 14-09-09.10 of the 1987 Supplement to the North Dakota Century Code is hereby amended and reenacted to read as follows:

14-09-09.11. Income withholding order. When a judgment or order requires the payment of child support, ~~or the payment of alimony and child support,~~ it may be enforced by an income withholding order, as provided in ~~section 14-09-09.3 and sections 14-09-09.10 through 14-09-09.23~~ this chapter, in addition to any other remedies provided by law.

SECTION 7. A new section to chapter 14-09 of the North Dakota Century Code is hereby created and enacted to read as follows:

Immediate income withholding.

1. Except as provided in subsection 2, each judgment or order which requires the payment of child support, issued or modified on or after January 1, 1990, subjects the income of the obligor to income withholding, regardless of whether the obligor's support payments are delinquent.
2. If a party to a proceeding, who would otherwise be subject to immediate income withholding under subsection 1, demonstrates, and the court finds that there is good cause not to require immediate withholding, or if the parties, including any assignee of support rights, reach a written agreement that provides for an alternative arrangement for assuring the regular payment of child support, the court need not subject the income of the obligor to immediate withholding.

3. Upon application of an obligee requesting income withholding, the child support agency shall promptly approve or disapprove the request. Each approved request must be transmitted promptly to the clerk of court.

SECTION 9. AMENDMENT. Section 14-09-09.12 of the 1987 Supplement to the North Dakota Century Code is hereby amended and reenacted to read as follows:

14-09-09.12. Provision of notice of impact of ~~section 14-09-09.3 and sections 14-09-09.10 through 14-09-09.23~~ income withholding law to obligors. Each judgment or order issued by a court in this state which includes an order for support of minor children must include a statement that a delinquency in payment of the support due or the approved request of the obligee will result in an income withholding order being issued in accordance with ~~section 14-09-09.3 and sections 14-09-09.10 through 14-09-09.23~~ this chapter.

SECTION 10. AMENDMENT. Section 14-09-09.13 of the 1987 Supplement to the North Dakota Century Code is hereby amended and reenacted to read as follows:

14-09-09.13. Procedure - Notice to obligor. If immediate income withholding under section 7 of this Act has not been implemented and an obligor is delinquent, or an obligee's request for income withholding is approved, the clerk of court shall serve a notice and a copy of this chapter on the obligor by first-class mail at the obligor's last known address. The notice must state:

1. That the obligor is delinquent in the payment of child support or a request for withholding has been made by the obligee and approved by a child support agency, as the case may be, and the obligor is therefore subject to an income withholding order on all income.
2. The amount of child support owed and the amount of arrearage, if any.
3. The total amount of money that will be withheld by the income payor from the obligor's income and that the amount is the sum of both of the following:
 - a. The obligor's current monthly support obligation.
 - b. The amount the obligor is ordered to pay toward any outstanding arrearage, or if no order to repay an arrearage exists, then an amount equal to twenty percent of the obligor's current support obligation, if any, or equal to the most recent monthly support obligation if there is no current support obligation, for application towards any arrearage subject to the limitations of section 14-09-09.16.
4. That the income payor may withhold an additional sum of one dollar three dollars to cover the income payor's expenses.
5. That if not contested pursuant to section 14-09-09.14, the income withholding order will be issued immediately, without further order of the court.
6. That the obligor may contest the issuance of the income withholding order by filing a written request for hearing within ten days of the date of the notice made under this section.

SECTION 11. AMENDMENT. Section 14-09-09.14 of the 1987 Supplement to the North Dakota Century Code is hereby amended and reenacted to read as follows:

14-09-09.14. Hearing upon obligor's request.

1. If the obligor files a request for a hearing within ten days of the date of the notice made pursuant to section 14-09-09.13, the court shall hold a hearing within ten working days after the date of the request. If at the hearing the obligor establishes:

- a. In a case where withholding would be based on an alleged delinquency, that there has been a mistake in the identity of the obligor; or
- b. In a case where an approved request for withholding has been made by the obligee, that the approval of the request constituted an abuse of discretion;

the court may order that no income withholding order issue. If at the hearing the obligor establishes that there is an overstatement in the amount of support stated to be owed by the obligor, the court may amend the amount to be withheld. In the absence of a finding of a mistake of fact in a case where withholding would be based on an alleged delinquency, or in the absence of an abuse of discretion in the approval of an obligee's request for withholding, the court shall order that the income withholding order issue. Payment of overdue support after issuance of notice under section 14-09-09.13 may not be the basis for an order that no income withholding order issue.

2. An obligor is not precluded, by subsection 1, from seeking appropriate relief from a judgment or order affecting a child support obligation nor is the court precluded from granting such relief. An obligor's request for such relief, whether made by motion under rule 60(b) of the North Dakota Rules of Civil Procedure or otherwise, may not be considered during the hearing described in subsection 1.

SECTION 12. AMENDMENT. Subsections 1 and 2 of section 14-09-09.16 of the 1987 Supplement to the North Dakota Century Code are hereby amended and reenacted to read as follows:

1. That the obligor is delinquent in the payment of support or a request for withholding has been made by the obligee and approved by the child support agency, as the case may be, and that the income payor is therefore required to withhold a stated sum from the obligor's income at the time the obligor is paid for transmittal to the clerk of court within ten days of the date the obligor is paid.
2. That the income payor may also withhold and retain an additional sum of ~~one dollar~~ three dollars from the obligor's income to cover expenses involved in transmitting payment.

SECTION 13. AMENDMENT. Section 14-09-09.17 of the 1987 Supplement to the North Dakota Century Code is hereby amended and reenacted to read as follows:

14-09-09.17. Amendment - Termination of income withholding order. Upon amendment, or termination, ~~or stay~~ of an income withholding order, the

clerk of court shall send appropriate notice to the income payor. An income withholding order is to be amended by the clerk when the total amount of money to be withheld is changed by elimination of arrearages or by court-ordered change in amount of child support. An income withholding order is to be terminated when the duty to support ceases and all child support arrearages have been paid. ~~An income withholding order may be stayed by the clerk of court when the location of the obligee is unknown to the clerk, preventing transmittal of the support.~~

SECTION 14. AMENDMENT. Section 14-09-09.19 of the 1987 Supplement to the North Dakota Century Code is hereby amended and reenacted to read as follows:

14-09-09.19. Interstate income withholding - Duties of the ~~agency~~ public authority upon receipt of request from other state.

1. Upon receipt of a support order of another state with the documentation specified in subsection 2 of this section from a child support agency of another state, the public authority shall file the order and documentation with a clerk of district court of any county in which the obligor resides or derives income.
2. All of the following documentation is required for the filing of a support order of another state for issuance of an income withholding order:
 - a. A certified copy of the support order with all modifications.
 - b. A certified copy of an income withholding order, if any, in effect.
 - c. A copy of the portion of the income withholding statute of the state which issued the support order which states the requirements for obtaining income withholding under the law of that jurisdiction.
 - d. A sworn statement of the obligee or assignee of the obligee or a certified statement of the clerk of court of the arrearages, if any, the obligee's approved request for withholding, if such a request has been made and approved, a certified statement that the circumstances in the case require immediate withholding under the laws of the state filing the support order, and any assignment of support rights.
 - e. The name, address, and social security number of the obligor, if known.
 - f. The name and address of the employer or other income payor of the obligor upon whom the income withholding order is to be served.
 - g. The name and address of the agency or person to whom the payments collected by income withholding are to be transmitted.

SECTION 15. AMENDMENT. Section 14-09-09.21 of the 1987 Supplement to the North Dakota Century Code is hereby amended and reenacted to read as follows:

14-09-09.21. Interstate income withholding - Hearing upon request of obligor. If the obligor files a request for hearing within ten days of the date of the notice made pursuant to section 14-09-09.20, the court shall hold a hearing within ten working days of the date of the request. At the hearing contesting the proposed income withholding order, the documentation filed with the court, pursuant to section 14-09-09.19, shall constitute prima facie proof, without further proof or foundation, that the support order is valid, that the amount of current payments and arrearages, if any, is as stated, that a request for withholding by an obligee has been made and approved, or that the circumstances of the case require immediate withholding under the laws of the state filing the support order; and that the obligee would be entitled to income withholding under the law of the state which issued the support order. If, at the hearing, the obligor establishes that there has been a mistake in the identity of the obligor or an overstatement of the amount of support stated to be owed by the obligor, that the obligee's request for withholding was not an approvable request under the laws of the approving state or that the circumstances of the case do not require immediate withholding under the laws of the state filing the support order, the court may order that no income withholding order issue. In the absence of a finding of mistake of fact, the court shall order that the income withholding order issue. Payment of overdue support after issuance of notice under section 14-09-09.20 may not be the basis for an order that no income withholding order issue. Issuance of an income withholding order does not confer jurisdiction on the courts of this state for any purpose other than issuance and enforcement of income withholding orders.

SECTION 16. A new section to chapter 14-09 of the North Dakota Century Code is hereby created and enacted to read as follows:

Periodic review of child support orders.

1. The public authority shall establish standards to determine that a child support order being enforced by the child support agency should be reviewed. If required to do so in order to secure approval by federal officials charged with administration of title IV-D of the Social Security Act [Pub. L. 93-647; 88 Stat. 2351; 42 U.S.C. 651 et seq., as amended], the public authority shall make those standards a part of a plan indicating how and when child support orders are to be periodically reviewed and adjusted.
2. If the child support agency determines, at the request of the obligor or the obligee, or on its own motion, that, pursuant to the standards described in subsection 1, a child support order being enforced by the child support agency should be reviewed, the child support agency shall initiate a review of such order and, if the order provides for child support payments in an amount less than eighty-five percent of the amount that would be required by child support guidelines established under subsection 1 of section 14-09-09.7, shall seek an amendment of the order. The court shall order the amendment of the child support order to conform to the amount of child support payment to that required under the child support guidelines unless the presumption that the correct amount of child support would result from the application of the child support guidelines is rebutted.

SECTION 17. A new section to chapter 14-09 of the North Dakota Century Code is hereby created and enacted to read as follows:

Periodic review of child support orders.

1. Each child support order must be reviewed by the child support agency not less than thirty-six months after the establishment of the order or the most recent review of the order unless:
 - a. In the case of an order with respect to which there is in effect an assignment under sections 50-09-06 or 50-09-06.1, subsection 2 of section 50-24.1-02, or section 50-24.1-02.1, the child support agency has determined that a review is not in the best interests of the child and neither the obligor nor the obligee has requested review; or
 - b. In the case of any other order neither the obligor nor the obligee has requested review.
2. If, upon review, the child support agency determines that the order provides for child support payments in an amount less than eighty-five percent of the amount that would be required by the child support guidelines established under subsection 1 of section 14-09-09.7, the child support agency shall seek an amendment to the order. The court shall order the amendment of the child support order to conform the amount of child support payment to that required under the child support guidelines unless the presumption that the correct amount of child support would result from the application of the child support guidelines is rebutted.

SECTION 18. A new section to chapter 14-09 of the North Dakota Century Code is hereby created and enacted to read as follows:

Notice of periodic review of child support orders.

1. The child support agency shall provide written notice that a child support order being enforced by the child support agency may be subject to review under section 16 or section 17 of this Act. The notice may be sent by first-class mail to the obligor and the obligee, at the addresses they have most recently provided to the child support agency, at least thirty-five days before the commencement of the review.
2. The notice to the obligor must inform the obligor of the duty to furnish the information required by section 19 of this Act and that a failure to furnish the required information may result in the entry of an order compelling the furnishing of the information. The notice must also inform the obligor that the review determination will be mailed to the obligor following the review. The notice must be accompanied by a copy of the income withholding statutes and an income report form, together with instructions for the accurate completion of the income report form.

SECTION 19. A new section to chapter 14-09 of the North Dakota Century Code is hereby created and enacted to read as follows:

Obligor's duties upon review - Failure to provide information.

1. The obligor shall provide information to the child support agency concerning the obligor's income, which is sufficient to accomplish

the review, no later than five working days before the date of review. The information must be furnished by:

- a. Providing an income report, in the form and manner required by the child support agency, accurately completed and attested to by the obligor;
 - b. Providing a verified copy of the latest income tax return, filed with the internal revenue service or any state official administering a state income tax, which accurately reports the obligor's income for a fiscal year ending no more than seventeen months prior to the date of the review; or
 - c. Providing a written authorization by which the child support agency may secure a verified copy of the latest income tax return, filed with the tax commissioner, which accurately reports the obligor's income for a fiscal year ending no more than seventeen months prior to the date of review.
2. If information concerning the obligor's income sufficient to accomplish the review has not been received by the child support agency by the fifth working day before the date of review, the child support agency shall provide to the tax commissioner an affidavit stating the obligor's name and address, that a review of the obligor's child support obligation is pending, that notice requesting income information has been given as required by law, and that the required information has not been furnished on a timely basis. Notwithstanding the provisions of section 57-38-57 or other confidentiality statutes, upon receipt of an affidavit provided for in this subsection, the tax commissioner may provide to a child support agency a verified copy of the latest income tax return, filed with the office of the commissioner, which reports the obligor's income. The information obtained by a child support agency from the tax commissioner, in accordance with this section, retains its confidentiality and may only be used by a child support agency in the pursuit of its child support collection duties and practices. The tax commissioner may require a child support agency to make assurances, satisfactory to the commissioner, that the agency has the ability to comply with this subsection.
3. If information concerning the obligor's income sufficient to accomplish the review has not been timely furnished by the obligor and is not available from the office of the tax commissioner, the child support agency may apply to the court for an order compelling the obligor to furnish information sufficient to accomplish the review.

SECTION 20. A new section to chapter 14-09 of the North Dakota Century Code is hereby created and enacted to read as follows:

Notice of review determination.

1. Following review, the child support agency shall promptly provide written notice of its determination on review. The notice may be sent by first-class mail to the obligor and the obligee, at the addresses they have most recently provided to the child support agency.

2. If the child support agency has made a determination that no amendment to the amount of child support should be sought, the notice must inform the obligor and the obligee of the right of each to challenge that determination by seeking an amendment to the amount of child support, from the court, at any time before the termination of the support order.
3. If the child support agency has made a determination to seek an amendment in the amount of child support, the notice must be mailed at least thirty-five days before the date of a hearing on a motion for amendment made by the child support agency under section 16 or section 17 of this Act, and must inform the obligor and the obligee of the right of each to challenge that determination by opposing that amendment before the court. The notice to the obligor must be accompanied by:
 - a. A proposed modification of the child support order to provide for payment of child support in the amount required under the child support guidelines;
 - b. A document by which the obligor may consent to the proposed modification; and
 - c. An address and telephone number which the obligor may contact to receive information from or schedule a meeting with representatives of the child support agency.

SECTION 21. A new section to chapter 14-09 of the North Dakota Century Code is hereby created and enacted to read as follows:

Motion for amendment of amount for child support - How made. Upon a determination by a child support agency, made under section 16 or section 17 of this Act, that it must seek amendment of a child support order, the child support agency may file and serve a motion and supporting documents.

SECTION 22. A new section to chapter 14-09 of the North Dakota Century Code is hereby created and enacted to read as follows:

Request for review - Notice of right to request review. An obligor or an obligee may request review under section 16 or section 17 of this Act, by applying to the child support agency for child support services, and indicating, in the manner there provided, a desire to have a child support order reviewed. Each judgment or order issued by a court in this state which includes an order for child support must include a statement advising of the right to request a review under this section.

SECTION 23. A new section to chapter 14-09 of the North Dakota Century Code is hereby created and enacted to read as follows:

Order.

1. Unless the obligee has comparable or better group dependent health insurance coverage available at no or nominal cost, the court shall order the obligor to name the minor child as beneficiary on any health insurance plan that is available to the obligor at no or nominal cost.

2. If the court finds that dependent health insurance is not available to the obligor or the obligee at no or nominal cost, the court may require the obligor to obtain dependent health insurance, or to be liable for reasonable and necessary medical expenses of the child.

SECTION 24. A new section to chapter 14-09 of the North Dakota Century Code is hereby created and enacted to read as follows:

Eligible child - Coverage to continue. A minor child that an obligor is required to cover as a beneficiary under section 23 of this Act is eligible for insurance coverage as a dependent of the obligor until the child's eighteenth birthday or until further order of the court. Insurance companies and nonprofit health service corporations licensed in this state shall continue coverage of a minor child insured under an accident and health insurance policy or health service contract while the legal custody of the minor child has been given by the court to the obligee to the same extent as the general public is covered as long as the minor child meets all the other usual qualifications for insurability and payment continues on the policy or contract premiums. A determination that legal custody will be with a parent other than a parent who pays policy or contract premiums, or on whose behalf payment of policy or contract premiums is made, may not be a basis for cancellation of the minor child's accident and health insurance policy or health service contract.

SECTION 25. A new section to chapter 14-09 of the North Dakota Century Code is hereby created and enacted to read as follows:

Authorization to insurer. The signature of the custodial parent of the insured dependent, the obligee, or the obligee's assignee is a valid authorization to the insurer for purposes of processing an insurance reimbursement payment to the provider of the medical services.

SECTION 26. A new section to chapter 14-09 of the North Dakota Century Code is hereby created and enacted to read as follows:

Application for service. The child support agency responsible for support enforcement shall take necessary steps to implement, modify, and enforce an order for dependent health insurance whenever the children receive aid to families with dependent children or foster care under chapter 50-09 or medical assistance under chapter 50-24.1, or upon application of the obligee to the child support agency and payment by the obligee of any required application fee.

SECTION 27. A new section to chapter 14-09 of the North Dakota Century Code is hereby created and enacted to read as follows:

Public authority to establish criteria. The public authority shall establish criteria to identify cases involving children who received aid to families with dependent children or foster care under chapter 50-09 or medical assistance under chapter 50-24.1, or where an application to the child support agency has been completed by an obligee and where there is a high potential for obtaining medical support based on:

1. Evidence that health insurance may be available to the obligor at reasonable cost; and

2. Facts that are sufficient to warrant modification of the existing court order to include health insurance coverage for a dependent child.

SECTION 28. A new section to chapter 14-09 of the North Dakota Century Code is hereby created and enacted to read as follows:

Reasonable cost of health insurance. For purposes of this chapter, health insurance is considered reasonable in cost if it is available to the obligor on a group basis or through an employer or union, regardless of service delivery mechanism.

SECTION 29. AMENDMENT. Subsection 1 of section 14-17-04 of the North Dakota Century Code is hereby amended and reenacted to read as follows:

1. A man is presumed to be the natural father of a child if:
 - a. He and the child's natural mother are or have been married to each other and the child is born during the marriage, or within three hundred days after the marriage is terminated by death, annulment, declaration of invalidity, or divorce, or after a decree of separation is entered by a court;
 - b. Before the child's birth, he and the child's natural mother have attempted to marry each other by a marriage solemnized in apparent compliance with law, although the attempted marriage is or could be declared invalid, and:
 - (1) If the attempted marriage could be declared invalid only by a court, the child is born during the attempted marriage, or within three hundred days after its termination by death, annulment, declaration of invalidity, or divorce; or
 - (2) If the attempted marriage is invalid without a court order, the child is born within three hundred days after the termination of cohabitation;
 - c. After the child's birth, he and the child's natural mother have married, or attempted to marry, each other by a marriage solemnized in apparent compliance with law, although the attempted marriage is or could be declared invalid, and:

IMMUNODEFICIENCY VIRUS PROCEDURES

AN ACT to create and enact a new section to chapter 12.1-20 and chapter 23-07.4 of the North Dakota Century Code, relating to transfer of body fluids that may contain the human immunodeficiency virus and public health procedures for persons with the human immunodeficiency virus infection; and to provide a penalty.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. A new section to chapter 12.1-20 of the North Dakota Century Code is hereby created and enacted to read as follows:

Transfer of body fluid that may contain the human immunodeficiency virus - Definitions - Defenses - Penalty.

1. As used in this section, unless the context otherwise requires:
 - a. "Body fluid" means semen, irrespective of the presence of spermatozoa; blood; or vaginal secretion.
 - b. "Transfer" means to engage in sexual activity by genital-genital contact, oral-genital contact, or anal-genital contact, or to permit the reuse of a hypodermic syringe, needle, or similar device without sterilization.
2. A person who, knowing that that person is or has been afflicted with acquired immune deficiency syndrome, afflicted with acquired immune deficiency syndrome related complexes, or infected with the human immunodeficiency virus, willfully transfers any of that person's body fluid to another person is guilty of a class A felony.
3. It is an affirmative defense to a prosecution under this section that if the transfer was by sexual activity, the sexual activity took place between consenting adults after full disclosure of the risk of such activity and with the use of an appropriate prophylactic device.

SECTION 2. Chapter 23-07.4 of the North Dakota Century Code is hereby created and enacted to read as follows:

23-07.4-01. Public health procedures for persons with human immunodeficiency virus infection. Subject to this chapter, the state health officer or a designee of the state health officer may examine or cause to be

examined a person reasonably believed to be infected with or to have been exposed to the human immunodeficiency virus.

1. Orders or restrictive measures directed to a person with human immunodeficiency virus infection must be used as the last resort when other measures to protect the public health have failed, including all reasonable efforts, which must be documented, to obtain the voluntary cooperation of the person who may be subject to the order or measure. The orders and measures must be applied serially with the least intrusive measures used first. The burden of proof is on the state health officer or a designee of the state health officer to show that specified grounds exist for the issuance of the orders or restrictive measures and that the terms and conditions imposed are no more restrictive than necessary to protect the public health.
2. When the state health officer or a designee of the state health officer knows or has reason to believe, because of medical or epidemiological information, that a person within that official's jurisdiction has human immunodeficiency virus infection and is a danger to the public health, that official may issue an order, according to the following priority, to:
 - a. Require the person to be examined and tested to determine whether the person has human immunodeficiency virus infection;
 - b. Require a person with human immunodeficiency virus infection to report to a qualified physician or health worker for counseling on the disease and for information on how to avoid infecting others; or
 - c. Direct a person with human immunodeficiency virus infection to cease and desist from specified conduct that endangers the health of others, but only if that official has determined that clear and convincing evidence exists to believe that the person has been ordered to report for counseling as provided in subdivision b and continues to demonstrate behavior that endangers the health of others.
3. If a person violates an order issued under subdivision c of subsection 2 and it is shown that the person is a danger to others, the state health officer or a designee of the state health officer may enforce the order by imposing such restrictions upon the person as are necessary to prevent the specific conduct that endangers the health of others. Restrictions must be in writing, setting forth the name of the person to be restricted and the initial period of time, not to exceed ninety days, during which the order remains effective, the terms of the restrictions, and any other conditions as may be necessary to protect the public health. Restrictions must be imposed in the least restrictive manner necessary to protect the public health.
4. Upon issuance of any order under subsection 2 or 3, the state health officer or a designee of the state health officer shall promptly, personally, and confidentially notify the person who is the subject of the order, stating the grounds and provisions of the order and the right to contest the order, the right to be present

at a judicial hearing in the county court in the county in which the person resides to review the order, and the right to be represented by counsel during the hearing. If the person who is the subject of the order refuses to comply with the order and refuses to cooperate voluntarily with the state health officer or a designee of the state health officer, the state health officer or designee may petition the county court in the county in which the person resides for an order of compliance. The state health officer or designee shall request the state's attorney in the county in which the person resides to file the petition in the county court. If an order of compliance is requested, the court shall hear the matter within ten days after the request. Notice of the place, date, and time of the court hearing must be made by personal service or, if the person is not available, must be mailed to the person who is the subject of the order by certified mail at the person's last known address. Proof of mailing by the state health officer or designee is sufficient notice under this section. The burden of proof is on the state health officer or designee to show by clear and convincing evidence that the specified grounds exist for the issuance of the order and for the need for compliance and that the terms and conditions imposed in the order are no more restrictive than necessary to protect the public health. Upon conclusion of the hearing, the court shall issue appropriate orders affirming, modifying, or dismissing the order. If the court dismisses the order, the fact that the order was issued must be expunged from the records of the state department of health and consolidated laboratories. If the court affirms or modifies the order and the person subject to the order is infected with the human immunodeficiency virus, the court shall require the person to disclose the names and addresses, if known, of persons with whom the person has had contact that poses an epidemiologically demonstrated risk of transmission of the human immunodeficiency virus. Failure to comply with court-ordered disclosure constitutes contempt of court.

5. A person who is the subject of an order authorized under this section is entitled to representation by legal counsel during any hearing to review the issuance of the order.

23-07.4-02. Emergency public health procedures.

1. When the procedures under section 23-07.4-01 have been exhausted or cannot be satisfied and the state health officer or designee knows or has reason to believe, because of medical or epidemiological information, that a person within that official's jurisdiction has human immunodeficiency virus infection and that the person continues to engage in behavior that presents an imminent danger to the public health, the state health officer or designee may bring an action in county court in the county in which the person resides to enjoin the person from engaging in or continuing to engage in such behavior. A custody order issued for the purpose of counseling and testing to determine whether the person has human immunodeficiency virus infection must provide for the immediate release from custody and from the facility for any person whose confirmed test results are negative and may provide for counseling or other appropriate measures to be imposed on any person whose confirmed test results are positive. The person who is the subject of the order must be given prompt, personal, and confidential notice of the order stating the grounds and provisions of the order and notifying the person of the right to contest the order, the right to be present at a judicial hearing in the county court in the county in which the person resides to review the order, and the right to be represented by counsel during the hearing. If the person contests testing or treatment, no invasive medical procedures may be carried out before a hearing is held under subsection 3.

3. Any order issued by the county court under subsection 2 is subject to review in a court hearing. Prompt, personal, and confidential notice of the place, date, and time of the court hearing and of the person's right to be present at the hearing and the right to representation by counsel during the hearing must be given to the person who is the subject of the court order. The hearing must be conducted by the court within forty-eight hours after the order is issued. If the court dismisses the order, the fact that the order was issued must be expunged from the records of the state department of health and consolidated laboratories. If the court affirms or modifies the order and the person subject to the order is infected with the human immunodeficiency virus, the court shall require the person to disclose the names and addresses, if known, of persons with whom the person subject to the order has had contact that poses an epidemiologically demonstrated risk of transmission of the human immunodeficiency virus. AN ACT to create and enact a new section to chapter 14-15 of the North Dakota Century Code, relating to the right to counsel in termination proceedings under the Revised Uniform Adoption Act; and to amend and reenact sections 14-17-18 and 27-20-45 of the North Dakota Century Code, relating to the right to counsel in termination proceedings under the Uniform Parentage Act and the Uniform Juvenile Court Act.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. A new section to chapter 14-15 of the North Dakota Century Code is hereby created and enacted to read as follows:

Right to counsel. A parent who consents to the adoption of a minor, under section 14-15-05, is entitled to legal counsel during all stages of a proceeding to terminate the parent and child relationship under section 14-15-19 if the minor is to be placed for adoption by a child-placing agency licensed under chapter 50-12. The parent may retain counsel of the parent's own choosing and at the parent's own expense, or, if indigent, the parent may request the court to order, upon which the court shall order, that a state's attorney serve as legal counsel to the parent at no cost to the parent. As an alternative to the state's attorney serving as legal counsel to the parent, the state's attorney may request the court to order, upon which the court may order, if a conflict is shown to exist, that other legal counsel services that may be available be provided to the parent at no cost to the parent. These alternative legal counsel services include counsel services for indigent persons. Prior to the termination proceeding held under section 14-15-19, the court or a person designated by the court shall inform the parent of the right to counsel provided by this section.

SECTION 2. AMENDMENT. Section 14-17-18 of the North Dakota Century Code is hereby amended and reenacted to read as follows:

14-17-18. Right to counsel - Free transcript on appeal.

1. At the pretrial hearing and in further proceedings, any party may be represented by counsel. The court shall appoint counsel for a party who is financially unable to obtain counsel.
2. A parent who relinquishes or proposes to relinquish a minor for adoption, under section 14-17-24, is entitled to legal counsel during all stages of a proceeding to terminate the parent and child relationship under that section if the child is to be placed for adoption by a child-placing agency licensed under chapter 50-12. The parent may retain counsel of the parent's own choosing and at

the parent's own expense, or, if indigent, the parent may request the court to order, upon which the court shall order, that a state's attorney serve as legal counsel to the parent at no cost to the parent. As an alternative to the state's attorney serving as legal counsel to the parent, the state's attorney may request the court to order, upon which the court may order, if a conflict is shown to exist, that other legal counsel services that may be available be provided to the parent at no cost to the parent. These alternative legal counsel services include counsel services for indigent persons. Prior to the termination proceeding held under section 14-17-24, the court or a person designated by the court shall inform the parent of the right to counsel provided by this section.

3. If a party is financially unable to pay the cost of a transcript, the court shall furnish on request a transcript for purposes of appeal.

SECTION 3. AMENDMENT. Section 27-20-45 of the 1987 Supplement to the North Dakota Century Code is hereby amended and reenacted to read as follows:

27-20-45. Proceeding for termination of parental rights.

1. The petition shall comply with section 27-20-21 and state clearly that an order for termination of parental rights is requested and that the effect thereof will be as stated in the first sentence of section 27-20-46.
2. If both of the natural parents of the child are not named in the petition either as petitioner or as respondent, the court shall cause inquiry to be made of the petitioner and other appropriate persons in an effort to identify an unnamed parent. The inquiry shall include, to the extent necessary and appropriate, all of the following:
 - a. Whether any man is presumed to be the father of the child under the Uniform Parentage Act.
 - b. Whether the natural mother of the child was cohabiting with a man at the time of conception or birth of the child.
 - c. Whether the natural mother of the child has received from any man support payments or promises of support with respect to the child or in connection with her pregnancy.
 - d. Whether any person has formally or informally acknowledged or declared his possible parentage of the child.
 - e. Whether any person claims any right to custody of the child.
3. The court shall add as respondent to the petition and cause to be served with a summons any person identified by the court as an unnamed parent, unless the person has relinquished parental rights, or parental rights have been previously terminated by a court.
4. If the court, after inquiry, is unable to identify an unnamed parent and no person has appeared in the proceeding claiming to be

an unnamed parent of the child or to have any right of custody of the child, the court shall enter an order terminating all parental rights of the unnamed parent with reference to the child and the parent and child relationship.

5. If a petition for termination of parental rights is made by a parent of the child under this section or if a parent consents to termination of parental rights under section 27-20-44, that parent is entitled to legal counsel during all stages of a proceeding to terminate the parent and child relationship if the child is to be placed for adoption by a child-placing agency licensed under chapter 50-12. The parent may retain counsel of the parent's own choosing and at the parent's own expense, or, if indigent, the parent may request the court to order, upon which the court shall order, that a state's attorney serve as legal counsel to the parent at no cost to the parent. As an alternative to the state's attorney serving as legal counsel to the parent, the state's attorney may request the court to order, upon which the court may order, if a conflict is shown to exist, that other legal counsel services that may be available be provided to the parent at no cost to the parent. These alternative legal counsel services include counsel services for indigent persons. Prior to the termination proceeding held under this chapter, the court or a person designated by the court shall inform the parent of the right to counsel provided by this subsection.
6. Subject to the disposition of an appeal, upon the expiration of thirty days after an order terminating parental rights is issued under this section, the order cannot be questioned by any person, including the petitioner, in any manner, or upon any ground, including fraud, misrepresentation, failure to give any required notice, or lack of jurisdiction of the parties or of the subject matter, unless the person retained custody of the child.

ASSISTED CONCEPTION ACT

AN ACT to adopt the Uniform Status of Children of Assisted Conception Act; and to amend and reenact section 12.1-31-05 of the North Dakota Century Code, relating to child procurement.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. Definitions. As used in sections 1 through 7 of this Act:

1. "Assisted conception" means a pregnancy resulting from insemination of an egg of a woman with sperm of a man by means other than sexual intercourse or by removal and implantation of an embryo after sexual intercourse, but does not include the pregnancy of a wife resulting from the insemination of her egg using her husband's sperm.
2. "Donor" means an individual whose body produces sperm or egg used for the purpose of assisted conception, whether or not a payment is made for the sperm or egg used, but does not include a woman who gives birth to a resulting child.
3. "Surrogate" means an adult woman who enters into an agreement to bear a child conceived through assisted conception for intended parents.

SECTION 2. Maternity. A woman who gives birth to a child is the child's mother.

SECTION 3. Assisted conception by married woman. The husband of a woman who bears a child through assisted conception is the father of the child, notwithstanding any declaration of invalidity or annulment of the marriage obtained after the assisted conception, unless within two years after learning of the child's birth the husband commences an action in which the mother and child are parties and in which it is determined that the husband did not consent to the assisted conception.

SECTION 4. Parental status of donors and deceased persons.

1. A donor is not the parent of a child conceived through assisted conception.

If the surrogate's husband is not a party to the agreement or the surrogate is unmarried, paternity of the child is governed by chapter 14-17.

A child whose status as a child is declared or negated by sections 1 through 7 of this Act is the child only of his or her parent or parents as determined under sections 1 through 7 of this Act for all purposes, including succession and gift rights in section 7 of this Act.

SECTION 7. Succession and gift rights. Unless superseded by later events forming or terminating a parent and child relationship, the status of parent and child declared or negated by sections 1 through 7 of this Act as to a given individual and a child born alive controls for purposes of:

1. Intestate succession;
2. Probate law exemptions, allowances, or other protections for children in a parent's estate; and
3. Determining eligibility of the child or the child's descendants to share in a donative transfer from any person as a member of a class determined by reference to the relationship.

SECTION 8. AMENDMENT. Section 12.1-31-05 of the 1987 Supplement to the North Dakota Century Code is hereby amended and reenacted to read as follows:

12.1-31-05. Child procurement - Penalty. Except with respect to fees and charges authorized by law or approved by a court in a proceeding related to the placement of a minor child for adoption or related to the adoption of a minor child, a person is guilty of child procurement, a class C felony, if the person knowingly offers, gives, or agrees to give to another or solicits, accepts, or agrees to accept from another, a thing of value as consideration for the recipient's furnishing or aiding another to furnish a minor child for the purposes of adoption. This section does not apply to parties to any agreement in which a woman agrees to become a surrogate, as defined in section 1 of this Act, or to relinquish her rights and duties as parent of a child conceived through assisted conception, as defined in section 1 of this Act.

A parent is qualified to supervise a program of home-based instruction if the parent is certified or certifiable to teach in North Dakota; has a high school education or has received a general educational development certificate and is supervised by a certificated teacher employed either by the public school district in which the parent resides or, if requested by the parent, by a state-approved private or parochial school; or has passed the national teacher exam given in North Dakota, or in any other state if North Dakota does not offer such a test. Home-based instruction must include those subjects required to be taught in accordance with sections 15-38-07, 15-41-06, and 15-41-24 and must be provided for at least four hours per day for a minimum of one hundred seventy-five days per year. A parent shall furnish these records to any school to which the

child may transfer upon request of the superintendent or other administrator of that public school district. A parent intending to supervise home-based instruction for the parent's child shall file an annual statement with the superintendent of the public school district in which the child resides. If the school district does not employ a local school superintendent, the statement must be filed with the county superintendent of schools for the county of the child's residence. The statement must be filed at least thirty days prior to the beginning of the school semester for which the parent requests an exemption except when residency of the child is not established by that date. If residency has not been established, the statement must be filed within thirty days of the establishment of residency within the district. The statement must include:

SECTION 5. A new section to chapter 15-34.1 of the North Dakota Century Code is hereby created and enacted to read as follows:

Students receiving home-based instruction - Quality assurance. In order to meet the state's compelling interest in assuring that citizens of the state receive a quality education, the following minimum indices of quality education are established:

1. A standardized achievement test used by the school district in which the child resides or, if requested by the parent, a standardized achievement test used by a state-approved private or parochial school must be given annually to each child receiving home-based instruction. The test must be given in the child's learning environment and must be administered by a certified teacher employed by the public school district in which the parent resides or, if requested by the parent, employed by a state-approved private or parochial school. The cost of such testing must be borne by the local school district in which the child resides if the test is administered by a certified teacher employed by a public school district or by the parent of the child if the test is administered by a certified teacher employed by a state-approved private or parochial school. Results of such testing must be provided to the local public school superintendent. If the child resides in a school district which does not employ a local school superintendent, the results must be filed with the county superintendent of schools for the county of the child's residence.

2. If the child's basic composite score on a standardized achievement test falls below the thirtieth percentile nationally, the child must be professionally evaluated for a potential learning problem. If the multidisciplinary assessment team evaluation determines that the child is not handicapped according to the eligibility criteria of the department of public instruction and the child does not require specially-designed instruction according to rules adopted by the department of public instruction, the parent providing instruction may continue to provide home-based instruction, upon filing with the superintendent of public instruction a statement, from an appropriately licensed professional, that the child is currently making reasonable academic progress when the learning abilities of the child are taken into consideration. If such statement is not filed, the parent is not entitled to an exemption under subsection 5 of section 15-34.1-03. If the evaluation of the multidisciplinary assessment team determines that the child is handicapped, but not developmentally disabled, according to the eligibility criteria of the department of public instruction, and the student requires specially-designed instruction due to the handicap and that this instruction cannot be provided without special education and related services, the parent providing instruction may continue to provide home-based instruction, upon filing with the superintendent of public instruction an individualized education program plan, formulated within rules adopted by the department of public instruction, indicating that the child's needs for special education are being appropriately addressed by persons qualified to provide special education or related services. If such a plan is not filed, the parent is not entitled to an exemption under subsection 5 of section 15-34.1-03.
3. Any certificated teacher supervising home-based instruction shall spend a minimum average each month of one hour per week in contact with each student under the teacher's supervision who is receiving home-based instruction. The teacher shall evaluate the student's progress and report the student's progress at least twice annually to the local public school superintendent. If the school district does not employ a local school superintendent, the report must be filed with the county superintendent of schools for the county of the child's residence.
4. If the local superintendent of public schools or the county superintendent of schools in those school districts that do not employ a local superintendent determines that the child is not making reasonable academic progress consistent with the child's age or stage of development, the parent of the child must be notified of the conclusion reached and the basis for the conclusion. Upon receipt of that notice, the parent shall make a good faith effort to remedy any deficiency. The appropriate official shall report the failure on the part of a parent to make a good faith effort to the state's attorney pursuant to section 15-34.1-04 as a violation of this chapter. The superintendent of public instruction shall adopt rules to assist local superintendents of schools, county superintendents of schools, and the licensed professionals referred to in subsection 2, in determining whether a child is making reasonable academic progress.

SECTION 6. A new section to chapter 15-34.1 of the North Dakota Century Code is hereby created and enacted to read as follows:

State aid. For purposes of allocating foundation aid and other state assistance to local school districts, students receiving home-based instruction shall be deemed enrolled in the school district in which they reside if the student is supervised by a certificated teacher employed by the public school district in which the parent resides.

SECTION 7. A new section to chapter 15-34.1 of the North Dakota Century Code is hereby created and enacted to read as follows:

Supervision or administration by a state-approved private or parochial school. CITY AND SCHOOLS COMBINED ELECTIONS

AN ACT to amend and reenact subsection 2 of section 15-28-03 of the North Dakota Century Code, relating to combined city and school district elections.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Subsection 2 of section 15-28-03 of the 1987 Supplement to the North Dakota Century Code is hereby amended and reenacted to read as follows:

2. The annual election provided for in this section may, upon resolution of the school board, be held in conjunction with the regularly scheduled city election, established by state law or established pursuant to the home rule powers of the city, held in a city located wholly or partially within that school district. The school board may enter into an agreement with the city commission or the city council concerning the sharing of election personnel, the printing of election materials, the use of one set of pollbooks, and the apportioning of election expenses. If only one set of pollbooks is used, the pollbook must contain a reference indicating the voter's eligibility to vote in the city or school board election, or both. References in this chapter to the date of school board elections, insofar as they relate to a school board which holds its elections in conjunction with a city, are deemed to mean or to refer to the date of the applicable city election. Such a school board has the further option to convert the terms of office of its members to four years rather than three years in order that school board elections like city elections may be held biennially rather than annually. A school board may convert the future terms of its members to four years by passing a resolution requiring such a conversion. Thereafter, following the expiration of the three-year term of each incumbent in office as of the date of the passage of the resolution, the term of office for that position on the board shall be four years, except that as to any seat where such an extension of the term would result in the four-year term of office ending in an odd-numbered year, for which seat one additional and transitional term of three years shall be provided before the term becomes a four-year term of office. Once the school board has accomplished the transition to biennial elections, references in this ~~chapter~~ title to annual elections as they apply to the school board are deemed to mean biennial elections, and the election held pursuant to section 15-28-11 must be held in even-numbered years.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. A new section to chapter 15-39.1 of the North Dakota Century Code is hereby created and enacted to read as follows:

Benefit payments to alternate payee under domestic relations order.

1. The board shall pay retirement benefits in accordance with the applicable requirements of any qualified domestic relations order. The board shall review a domestic relations order submitted to it to determine if the domestic relations order is qualified under this section and under rules established by the board for determining the qualified status of domestic relations orders and administering distributions under the qualified orders. Upon determination that a domestic relations order is qualified, the board shall notify the teacher and the named alternate payee of its receipt of the qualified domestic relations order.
2. A "qualified domestic relations order" for purposes of this section means any judgment, decree, or order, including approval of a property settlement agreement, which relates to the provision of child support, spousal support, or marital property rights to a spouse, former spouse, child, or other dependent of the teacher, which is made pursuant to a North Dakota domestic relations law, and which creates or recognizes the existence of an alternate payee's right to, or assigns to an alternate payee the right to, receive all or a part of the benefits payable to the teacher. A qualified domestic relations order may not require the board to provide any type or form of benefit, or any option, not otherwise provided under the fund, or to provide increased benefits as determined on the basis of actuarial value. However, a qualified domestic relations order may require the payment of benefits at the early retirement date notwithstanding that the teacher has not terminated eligible employment. A qualified domestic relations order must specify:

- b. The amount or percentage of the teacher's benefits to be paid by the board to each alternate payee;

For high schools having seventy-five or more, but less than one hundred fifty pupils in average daily membership, the amount of money resulting from multiplying the factor 1.40 times the educational support per pupil as provided in section 15-40.1-06 for each high school pupil registered in the schools each year.
3. For high schools having one hundred fifty or more, but less than five hundred fifty pupils in average daily membership, the amount of money resulting from multiplying the factor 1.32 times the educational support per pupil as provided in section 15-40.1-06 for each high school pupil registered in the schools each year.

SPECIAL EDUCATION COST SHARING

AN ACT to create and enact a new section to chapter 15-59 and a new subsection to section 15-59.2-05 of the North Dakota Century Code, relating to school district liability for the cost of special education and coordination of special education transportation; to amend and reenact sections 15-40.1-16.1, 15-40.2-08.1, 15-59-02.1, and 15-59-06 of the North Dakota Century Code, relating to state aid for special education; to provide an effective date; and to provide an expiration date.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 15-40.1-16.1 of the North Dakota Century Code is hereby amended and reenacted to read as follows:

15-40.1-16.1. Transportation aid for certain vocational education and special education programs. There shall be paid from state funds to each school district an amount for transporting pupils to and from schools in other districts and to and from schools within school districts for vocational education courses offered through cooperative arrangements approved by the state board of vocational education. ~~Similar payments shall be paid to the school districts transporting pupils for special education programs approved by the superintendent of public instruction.~~ Such amount shall be the same amount for mileage and per day as is provided in subsection 1 of section 15-40.1-16, ~~except that school.~~ Payments must be made to school districts transporting pupils for special education programs approved by the superintendent of public instruction as follows:

1. School districts transporting nine or fewer pupils per vehicle are entitled to the payment provided in section 15-40.1-16 for vehicles having a capacity of nine or fewer pupils.
2. School districts transporting ten or more pupils per vehicle are entitled to the payment provided for in section 15-40.1-16 for schoolbuses having a capacity of ten or more pupils.

School districts entitled to transportation aid pursuant to this section shall receive such aid for all miles [kilometers] traveled and for all pupils transported, regardless of whether or not such pupils live within the incorporated limits of cities in which the schools in which they are enrolled are located. Provided, however, that no school district shall receive more than one per-pupil payment for transportation regardless of the number of times any pupil is transported in any one day.

SECTION 2. AMENDMENT. Section 15-40.2-08.1 of the 1987 Supplement to the North Dakota Century Code is hereby amended and reenacted to read as follows:

15-40.2-08.1. Payment of tuition in cases of handicapped children placed for purposes other than education.

1. The payment of tuition in cases of handicapped children placed outside their school districts of residence pursuant to subdivisions a through c for purposes other than education must be made by the school district of residence and by the state in the proportions set forth in ~~subsection~~ subsections 2 and 3. For purposes of applying this section, the school district in which a child resides must be construed to be the district of residence of such child:
 - a. When the placement is made for any prescribed period of time by a county or state social service agency or a regional human service center at a state-licensed child care home or agency;
 - b. When the placement is made from a state-operated institution; or
 - c. When the placement is made pursuant to an order of any state court, tribal court, or a juvenile supervisor which requires a child to stay for any prescribed period of time at a state-licensed child care home or agency.
2. For the biennium beginning July 1, 1987, and ending June 30, 1989, the school district of residence is liable to pay the admitting district as part of the cost of educating the student an amount for the school year equal to two and one-half times the state average per-pupil elementary or high school cost, depending on whether the enrollment would be in a grade or high school department; provided, that such payment may not exceed the actual per-pupil cost incurred by the admitting district. The remainder of the actual cost of educating the student not covered by other payments or credits must be paid from funds provided to the department of public instruction by the legislative assembly for special education.
3. For succeeding bienniums the school district of residence is liable to pay the admitting district as part of the cost of educating the student an amount for the school year equal to the state average per-pupil elementary or high school cost, depending on whether the enrollment is in a grade or high school department, provided that the payment may not exceed the actual per-pupil cost incurred by the admitting district. The remainder of the actual cost of educating the handicapped student not covered by other payments or credits must be made as follows:
 - a. For the biennium beginning July 1, 1989, and ending June 30, 1991, the school district of residence is liable for ~~sixty~~ twenty percent of the cost and the state is liable for ~~forty~~ eighty percent of the cost.
 - b. ~~For the biennium beginning July 1, 1991, and ending June 30, 1993, the school district of residence is liable for forty~~

percent of the cost and the state is liable for sixty percent of the cost.

~~c. For the biennium beginning July 1, 1993, and ending June 30, 1995, the school district of residence is liable for twenty percent of the cost and the state is liable for eighty percent of the cost.~~

~~d. After June 30, 1995 1991, the state is liable for one hundred percent of the cost.~~

4. The state and the school district of residence are liable for tuition and the actual cost of educating the student not covered by other payments or credits upon claim of the admitting school district; provided, that the state, the district of residence, and the admitting school district are notified of the placement by the placement agency, institution, or court at the time the same is ordered. Notification must be made by the placement agency.
5. If the handicapped student does not have a parent residing in North Dakota, or if parental rights have been terminated, the state shall pay the actual cost of educating the handicapped student from funds appropriated by the legislative assembly for the foundation aid program. If the handicapped student has reached the age of majority and continues to receive special education and related services from a public school district, the district of residence of the student remains the same as the student's parent or parents until the special education services are concluded.
6. In the event of a voluntary admission to any state-licensed child care home or agency, the determination of tuition may be subject to an appeal filed with the county superintendent of schools. The three-member committee referred to in section 15-40.2-05, shall within fifteen days consult with the school boards of the districts concerned and with the parent or guardian of the pupil concerned and render a decision in regard to the tuition charges. Those provisions of section 15-40.2-05 relating to multicounty districts, notification of unpaid tuition, and withholding of state payments apply to this section.

SECTION 3. AMENDMENT. Section 15-59-02.1 of the 1987 Supplement to the North Dakota Century Code is hereby amended and reenacted to read as follows:

15-59-02.1. Legislative intent - Special education. This statement of legislative intent is provided to define more clearly the relationship between the state, school districts, and parents of handicapped children in the provision of special education and related services. "Related services" means transportation and such developmental and corrective or supportive services required to assist a handicapped child to benefit from special education.

The school administrator or his appointed representative or director of special education other than the child's teacher is responsible for bringing together professionals and parents to share assessment information related to all areas of suspected disability, develop an individualized education

program plan for the handicapped student, and make recommendations for required special education and related services.

The legislative assembly believes that in order to assure equality of services which are provided for by limited state funds, the department of public instruction will be required to approve a contract for services based on an individualized education program developed for each handicapped student placed in a private school program or in programs outside the student's original special education unit.

The legislative assembly believes that when money is distributed to a school district for special education personnel, the department of public instruction should give consideration to the units of service provided by the district, the district's special education program costs, and the district's special education program needs. However, no program may be reimbursed at a lesser rate than that of the prior year, notwithstanding locally initiated program changes, within the limits of legislative appropriations.

The legislative assembly recognizes that a handicapped student whose individualized education program so requires is entitled to an educational program in excess of one hundred eighty days per year if regression caused by an interruption in educational programming, together with a student's limited recoupment capacity, renders it impossible or unlikely that the student will attain the level of self-sufficiency and independence from caretakers that the student would otherwise be expected to reach in view of the handicapping condition. All summer programs attended by these students must have approval of the department of public instruction before receiving foundation aid or state special education reimbursement.

In the case of handicapped students who require boarding care away from the family residence in order to receive special education and related services in an approved program, it is the intent of the legislative assembly that the instructional costs and costs of related services, including boarding care, be borne by state special education funds and school district funds.

"All handicapped children have the right to a free appropriate education" means that all handicapped students have the right to special education and related services which must be provided at no cost to parents. "At no cost" means specifically designed instruction provided without charge but does not preclude expenses normally incurred or charged to parents of nonhandicapped children. Parents will assume such costs for a handicapped child as they would if the child was not handicapped. Personal items, including, but not limited to, hearing aids, eyeglasses, routine medical expenses, physical exams, medications, and all items necessary for a nonhandicapped child, will be the financial responsibility of the parent.

School districts must require use of family insurance, or similar third party payments, in whatever amount is allowed, as long as there is no financial loss to the child or the child's parent, for determining a child's medically related handicapping condition or other required related services which results in the child's need for special education. It is the school district's responsibility to assume costs not covered by the insurer or similar third party in the above situation.

The school district in which a handicapped student resides is responsible to provide transportation for the student as prescribed in the student's individualized education program.

Costs of transportation for the student to attend an approved special education program are the responsibility of the school district with aid from the department of public instruction.

The district of residence may use any reasonably prudent and safe means of transportation at its disposal to carry out the requirements of the individualized education program. Such means may include, but not be limited to, a regularly scheduled schoolbus, public or commercial transportation where appropriate, charter or specially contracted transportation, or transportation provided by a handicapped student's parent or other responsible party at school district expense.

If the transportation between the district of residence and the educational facility is provided by the parents, the reimbursement to the school district from department of public instruction funds must be for mileage costs only and may not include per diem costs for meals, lodging, lost wages, or other costs of any kind.

As the state department of health and consolidated laboratories has authority under chapter 25-16 to provide early intervention services to meet the needs of handicapped children ages zero through two years, the legislative assembly recognizes this provision and requires the department of public instruction, the state department of health and consolidated laboratories, and the department of human services to cooperate in planning and coordinating programs for these children.

SECTION 4. AMENDMENT. Section 15-59-06 of the North Dakota Century Code is hereby amended and reenacted to read as follows:

15-59-06. State cooperation in special education. Exceptional children who are enrolled in approved programs of special education shall be deemed to be regularly enrolled in the school district of residence and shall be included in the determination of elementary and high school per-pupil payments from the state foundation aid program whether or not such pupils are regularly attending school in the school or school district receiving such payments. A prorated state foundation aid payment for a student to attend a public school program for handicapped students, approved by the superintendent of public instruction, may be made provided that the individualized education program for the child is written during the last quarter of the school term and specifically requires that the child attend a summer special education program. In the case of a student who is enrolled in a nonpublic school but who is attending a public school special education program, payments shall be made to the appropriate public school district in relation to the proportion of a normal schoolday as such student participates in such special education program. For the purposes of this section, a normal schoolday shall be deemed to consist of six hours. Upon the determination by the director of special education that the school district has made expenditures for each exceptional child in such program equal to the average expenditures made in such district for elementary or high school students, as the case may be, the director by vouchers drawn upon funds provided by the legislative assembly for such purpose may provide reimbursement to such school or school district in an amount not exceeding three times the state average per-pupil cost of education computed by the

department of public instruction for the previous school year for such child per year for instruction and four times the state average per-pupil cost of education computed by the department of public instruction for the previous year for such child per year for the cost of related services. The amount the school district is required to expend must be reduced proportionately if a child attends the school for less than an entire year. If any school district within a special education unit has any handicapped elementary or high school student who, in the opinion of a qualified psychologist, a medical doctor, district superintendent, and the district or multidistrict director of special education, is unable to attend the public schools in the special education unit because of a handicapping condition, such school district shall contract with an in-state public school outside the special education unit in which the student is a legal resident which will accept such student and has proper facilities for the education. No school district shall may enter into a contract with any in-state public school for the education of any student because of a handicapping condition, unless the curriculum provided by such school and the contract has been approved in advance by the superintendent of public instruction. The contract shall must provide that such school district agrees to pay to the in-state public school as part of the cost of educating such student an amount for the school year equal to two and one-half times the state average per-pupil elementary or high school cost, depending on whether the enrollment would be in a grade or high school department; provided, that such payment shall may not exceed the actual per-pupil cost incurred by such in-state public school. The school district's liability must be reduced proportionately if the student attends the in-state public school for less than an entire year. The superintendent of public instruction, upon notification by the admitting district and upon verification by the superintendent that tuition payments are due the admitting district and are unpaid, shall withhold all payments from the state for foundation aid to the district of residence until the tuition due has been paid. The transportation shall must be furnished as provided by rules and regulations of the department of public instruction. The remainder of the actual cost of educating the handicapped student not covered by other payments or credits shall must be paid from funds provided by the legislative assembly for such purpose. The department of public instruction may provide reimbursement to such school or school district in an amount not exceeding three times the state average per-pupil cost of education computed by the department of public instruction for the previous school year for such child per year for instruction and four times the state average per-pupil cost of education computed by the department of public instruction for the previous year for such child per year for the cost of related services.

SECTION 5. A new section to chapter 15-59 of the North Dakota Century Code is hereby created and enacted to read as follows:

Cost of special education - Liability of school district. If allowable costs for special education and related services for an exceptional child in a special education program, as determined by the superintendent of public instruction, exceed the reimbursement provided by the state, the school district is liable to pay for each such student an amount over the state reimbursement up to a maximum each school year of two and one-half times the state average per-pupil elementary or high school cost, depending on whether the enrollment would be in a grade or high school department. The two and one-half times amount includes the amount the school district is required to pay in section 15-59-06. The state is liable for one hundred percent of the remainder of the cost of education and related services for each such handicapped student.

SECTION 6. A new subsection to section 15-59.2-05 of the North Dakota Century Code is hereby created and enacted to read as follows:

To plan and coordinate the transportation of pupils for special education programs within the school districts participating in the multidistrict special education program.

SECTION 7. EFFECTIVE DATE. Section 3 of this Act becomes effective on July 1, 1990.

SECTION 8. EXPIRATION DATE. Section 3 of this Act is effective through June 30, 1991, and after that date is ineffective.

To such average current operating expense in the county for kindergarten, elementary, or high school students, as the case may be, except special education students where a fair rental charge for each student for capital outlay must be determined by the department of public instruction, must be added the statewide total of all school districts' annual expenditures from sinking and interest funds, plus the statewide total of all school districts' annual tax receipts to the building funds, including any amounts expended from school districts' general funds for capital outlay, divided by the average daily membership of the state. SECTION 2. AMENDMENT. Subsection 19 of section 19-02.1-01 of the 1987 Supplement to the North Dakota Century Code is hereby amended and reenacted to read as follows:

19. "Pesticide chemical" means any substance which, alone, in chemical combination, or in formulation with one or more other substances is ~~an "economic poison"~~ a "pesticide" within the meaning of chapter 19-18, and which is used in the production, storage, or transportation of raw agricultural commodities.

SECTION 3. AMENDMENT. Section 19-02.1-09 of the North Dakota Century Code is hereby amended and reenacted to read as follows:

19-02.1-09. Food - Adulteration defined. A food shall be deemed to be adulterated for any of the following reasons:

1. If it bears or contains any poisonous or deleterious substance which may render it injurious to health; but in case the substance is not an added substance such food shall not be considered adulterated under this clause if the quantity of such substance in such food does not ordinarily render it injurious to health.

2. If it bears or contains any added poisonous or added deleterious substance, other than one which is:
 - a. A pesticide chemical in or on a raw agricultural commodity;
 - b. A food additive; or
 - c. A color additive which is unsafe within the meaning of subsection 1 of section 19-02.1-12.
3. If it is a raw agricultural commodity and it bears or contains a pesticide chemical which is unsafe within the meaning of subsection 1 of section 19-02.1-12.
4. If it is or bears or contains, any food additive which is unsafe within the meaning of subsection 1 of section 19-02.1-12.

Provided, that where a pesticide chemical has been used in or on a raw agricultural commodity in conformity with an exemption granted or tolerance prescribed under subsection 1 of section 19-02.1-12, and such raw agricultural commodity has been subjected to processing such as canning, cooking, freezing, dehydrating, or milling, the residue of such pesticide chemical remaining in or on such processed food shall not, notwithstanding the provisions of section 19-02.1-12 and this subsection, be deemed unsafe if such residue in or on the raw agricultural commodity has been removed to the extent possible in good manufacturing practice, and the concentration of such residue in the processed food when ready-to-eat, is not greater than the tolerance prescribed for the raw agricultural commodity.

5. If it consists in whole or in part of a diseased, contaminated, filthy, putrid, or decomposed substance, or if it is otherwise unfit for food.
6. If it has been produced, prepared, packed, or held under unsanitary conditions whereby it may have become contaminated with filth, or whereby it may have been rendered diseased, unwholesome, or injurious to health.
7. If it is the product of a diseased animal or an animal which has died otherwise than by slaughter, or that has been fed upon the uncooked offal from a slaughterhouse.
8. If its container is composed, in whole or in part, of any poisonous or deleterious substance which may render the contents injurious to health.
9. If any valuable constituent has been in whole or in part omitted or abstracted therefrom.
10. If any substance has been substituted wholly or in part therefor.
11. If damage or inferiority has been concealed in any manner.
12. If any substance has been added thereto or mixed or packed therewith so as to increase its bulk or weight, or reduce its

quality or strength or make it appear better or of greater value than it is.

13. If it is confectionery and it bears or contains any alcohol or nonnutritive article or substance except harmless coloring, harmless flavoring, harmless resinous glaze not in excess of four-tenths of one percent, harmless natural wax not in excess of four-tenths of one percent, harmless natural gum, and pectin; provided, that this subsection shall not apply to any confectionery by reason of its containing less than one-half of one percent by volume of alcohol derived solely from the use of flavoring extracts, or to any chewing gum by reason of its containing harmless nonnutritive masticatory substances has partially or completely imbedded therein any non-nutritive object. This subsection does not apply in the case of any non-nutritive object if, in the judgment of the department as provided by rules, the object is of practical functional value to the confectionery product and would not render the product injurious or hazardous to health. This subsection does not apply to any confectionery, by reason of its containing less than one-half of one percent by volume of alcohol derived solely from the use of flavoring extracts. This subsection does not apply to a non-nutritive substance that is in or on confectionery by reason of its use for some practical functional purpose in the manufacture, packaging, or storage of such confectionery if the use of the substance does not promote deception of the consumer or otherwise result in adulteration or misbranding in violation of any provision of this chapter. To avoid or resolve uncertainty as to the application of this subsection, the department may issue rules allowing or prohibiting use of particular non-nutritive substances.
14. If it is or bears or contains any color additive which is unsafe within the meaning of subsection 1 of section 19-02.1-12.
15. If it has been intentionally subjected to radiation, unless the use of the radiation was in conformity with a regulation or exemption in effect pursuant to federal law.

SECTION 4. Two new subsections to section 19-02.1-10 of the North Dakota Century Code are hereby created and enacted to read as follows:

If it is a raw agricultural commodity that is the produce of the soil, bearing or containing a pesticide chemical applied after harvest, unless the shipping container of the commodity bears labeling that declares the presence of the chemical in or on the commodity and the common or usual name and the function of the chemical. No such declaration is required while the commodity, having been removed from the shipping container, is being held or displayed for sale at retail out of the container in accordance with the custom of the trade.

If its packaging or labeling is in violation of an applicable regulation issued under section 3 or 4 of the Poison Prevention Packaging Act of 1970.

SECTION 5. AMENDMENT. Section 19-02.1-11 of the North Dakota Century Code is hereby amended and reenacted to read as follows:

19-02.1-11. Emergency permit control. Whenever the department finds after investigation that the distribution in the state of North Dakota of any class of food may, by reason of contamination with microorganisms during manufacture, processing, or packing thereof in any locality, be injurious to health and that such injurious nature cannot be adequately determined after such articles have entered commerce, it then, and in such case only, shall promulgate regulations providing for the issuance, to manufacturers, processors, or packers of such class of food in such locality, of permits to which shall be attached such conditions governing the manufacture, processing, or packaging, or packing of such class of food, for such temporary period of time, as may be necessary to protect the public health; and after the effective date of such regulations, and during such temporary period, no person shall introduce or deliver for introduction into commerce any such food manufactured, processed, or packed by any such manufacturer, processor, or packer unless such manufacturer, processor, or packer holds a permit issued by the department as provided by such regulations.

The state laboratories director department is authorized to suspend immediately upon notice any permit issued under authority of this section if it is found that any of the conditions of the permit have been violated. The holder of a permit so suspended shall be privileged at any time to apply for the reinstatement of such permit, and the state laboratories director department shall, immediately after prompt hearing and inspection of the establishment, reinstate such permit if it is found that adequate measures have been taken to comply with and maintain the conditions of the permit, as originally issued, or as amended.

Any officer or employee duly designated by the state laboratories director department shall have access to any factory or establishment, the operator of which holds a permit from the department for the purpose of ascertaining whether or not the conditions of the permit are being complied with, and denial of access for such inspection shall be grounds for suspension of the permit until such access is freely given by the operator.

SECTION 6. Two new subsections to section 19-02.1-14 of the North Dakota Century Code are hereby created and enacted to read as follows:

If it is a device and it has an established name, unless its label bears, to the exclusion of any other nonproprietary name, its established name, as defined in subsection 6, prominently printed in type at least half as large as that used thereon for any proprietary name or designation for the device, except that to the extent compliance with the requirements of this subsection is impracticable, exemptions will be established by rules adopted by the department. As used in this subsection the term "established name" with respect to a device means:

- a. The applicable official name of the device designated pursuant to federal law.
- b. If there is no official name of the device designated pursuant to federal law and the device is an article recognized in an official compendium, then the official title of the device in the compendium.
- c. If neither subdivision a nor subdivision b applies, then any common or usual name of the device.

GENERIC DRUGS

AN ACT to amend and reenact subsections 3 and 4 of section 19-02.1-14.1 of the North Dakota Century Code, relating to selecting and dispensing generic drugs.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Subsections 3 and 4 of section 19-02.1-14.1 of the 1987 Supplement to the North Dakota Century Code are hereby amended and reenacted to read as follows:

3. The form for a written prescription shall have two signature lines at opposite ends of the bottom of the form. Under the line on the right side shall be clearly printed the words "dispense as written". Under the line on the left side shall be clearly printed the words "substitution permitted". The physician shall communicate his instructions to the pharmacist by signing the appropriate line. If an oral prescription for a brand name drug product is given to a pharmacist, the practitioner shall instruct the pharmacist as to whether the drug must be dispensed as prescribed or whether a therapeutically equivalent generic name drug product may be substituted in its place. If a practitioner prescribes a drug by its brand name, the pharmacist may exercise professional judgment in the economic interest of the patient by selecting a drug product with the same generic name and demonstrated therapeutical equivalency as the one prescribed for dispensing and sale to the patient unless the practitioner specifically indicates in the practitioner's own handwriting "brand necessary" on a written prescription or expressly indicates that an oral prescription is to be dispensed as communicated. The pharmacist shall note the instructions on the file copy of the prescription. A reminder legend must be placed on all prescription forms. The legend must state: "In order to require that a brand name product be dispensed, the practitioner must handwrite the words 'brand necessary'." The legend printed on the prescription form must be in at least sixteen-point uppercase print. The pharmacist shall not substitute a generic name drug product unless its price to the purchaser is less than the price of the prescribed drug product. In addition, a pharmacist shall not substitute drug products in the following dosage forms: enteric coated tablets, controlled release products, injectable suspensions other than antibiotics, suppositories containing active ingredients for which systemic absorption is necessary for therapeutic activity, and different delivery systems for aerosol and nebulizer drugs. In the event that any drug listed above is, subsequent to January 1, 1982,

determined to be therapeutically equivalent, then the previously mentioned substitution ban shall be automatically removed for that drug. The pharmacist shall inform the person receiving the drug when a prescription for a brand name drug product does not require that the prescribed drug be dispensed and of the person's right to refuse a generic name drug product selected by the pharmacist. The pharmacy file copy of every prescription shall include the brand name, if any, or the name of the manufacturer, packer, or distributor of the generic name drug dispensed. A pharmacist who selects and dispenses a therapeutically equivalent generic name drug product shall assume no greater liability for selecting the dispensed drug product than would be incurred in filling a prescription for a drug product prescribed by its generic name. The practitioner is not liable for the substitution made by a pharmacist.

4. In the case of a prescription for which a maximum allowable cost program for purposes of reimbursement has been established under title XIX of the federal Social Security Act, the following shall also apply:
 - a. If the practitioner has signed the appropriate line of a prescription instructing instructed the pharmacist to dispense as written, the words "brand necessary" must also be written on the prescription in the practitioner's own handwriting. The pharmacist may dispense a therapeutically equivalent generic name drug product if this handwritten instruction does not appear on the prescription.
 - b. If the pharmacist is instructed orally to dispense a brand name drug as prescribed, the pharmacist shall reduce the prescription to writing and shall note the instructions on the file copy of the prescription. The prescription shall then be signed by the practitioner on the appropriate line and the words "brand necessary" must also be written on the prescription in the practitioner's own handwriting.
